COURSE DESCRIPTION

Required of all credential candidates. The purpose of this course is to prepare teacher candidates to successfully complete the California Teacher Performance Assessment (CalTPA). In California, all teacher candidates must complete a Teacher Performance Assessment (TPA) in order to earn a preliminary credential. The assessments require candidates to complete defined tasks relating to subject-specific pedagogy, designing and implementing instruction and student assessment, and culminating teaching experiences or events. When taken as a whole, teaching performance assessment tasks/activities measure the Teacher Performance Expectations (TPEs). Candidate performances are scored by trained assessors against rubrics that describe levels of performance relative to each task/activity. Each model must also meet and maintain specified standards of assessment reliability, validity, and fairness to candidates. The CalTPA consists of two instructional cycles completed over the course of a credential program. CalTPA cycles are scored by trained assessors who are experts in the content for their assigned assessments. Candidates submit CalTPA materials on or before the provided due dates and receive their scores in approximately three weeks. Candidates must successfully complete and pass both CalTPA cycles in order to receive a preliminary California teaching credential. Workshops are provided to support candidates with CalTPA completion.

This course also requires:

- Attendance at CalTPA workshops throughout the semester.

Course Prerequisites

- Admission to a teacher credential program.

Course Objectives

Students completing EDUC 593-1 will be able to:

- Access and navigate materials in preparation for the CalTPA.
- Using appropriate California Content Standards, candidates will be able to use CalTPA assessment materials to complete an instructional cycle with a class of students. They will plan, teach & assess, reflect on and apply knowledge gained in order to demonstrate mastery of the California Standards for the Teaching Profession (TPEs).
- Candidates will submit their assessment materials to the CalTPA assessment portal.

Unique Course Requirements

- Candidates must be appropriately assigned to a clinical practice placement to complete the CalTPA.
- In order to earn a passing grade, students must submit all materials for Cycle 1 of the CalTPA. Note: passing this course does not indicate whether students have met the

California State requirement of passing the CalTPA; it only indicates that candidates have submitted their materials to the CTC prior to the due date set forth by the College of Education.

Electronic Communication Protocol

Electronic correspondence is a part of your professional interactions. If you need to contact the instructor, e-mail is often the easiest way to do so. It is my intention to respond to all received e-mails in a timely manner. Please be reminded that e-mail and online discussions are a very specific form of communication, with their own nuances and etiquette. For instance, electronic messages sent in all upper case (or lowercase) letters, major typos, or slang, often communicate more than the sender originally intended. With that said, please be mindful of all e-mail and online discussion messages you send to your colleagues, to faculty members in the School of Education, or to persons within the greater educational community. All electronic messages should be crafted with professionalism and care.

Things to consider:

- Would I say in person what this electronic message specifically says?
- How could this message be misconstrued?
- Does this message represent my highest self?
- Am I sending this electronic message to avoid a face-to-face conversation?

In addition, if there is ever a concern with an electronic message sent to you, please talk with the author in person in order to correct any confusion.
