Dean, Library 
Subject: Library Comments for the P form for Pre-Health Certificate

Thank you for the opportunity to add comments related to the p-form for the new Pre-Health Certificate. The addition of this new certificate program does not require the allocation of a large amount of new resources from the Library. However, as the College of Science and Math continues to grow and add new programs, the resulting increase in FTES places additional pressures and demands on the existing collections and expertise within the Library.

To keep up with the growth of science programs at CSUSM, we strongly recommend the following subscription be added:

Web of Knowledge/Science - \$46,000 (backfiles, one-time purchase - \$40,000)

Web of Knowledge is the premier discovery tool for researchers and students, particularly in the sciences. With the continued growth and advancement of CSM, Web of Knowledge is a resource that is vital to providing an enriching educational experience and maintaining excellence in the research activities of faculty, students, and staff.
