College of Education Mission Statement

The mission of the College of Education Community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research, and on-going service. Our practices demonstrate a commitment to student-centered education, diversity, collaboration, professionalism and shared governance. (adopted by COE Governance Community, October 1997)

COURSE DESCRIPTION

EDSS 547 Disciplinary and Interdisciplinary Methods Catalogue Description

Methodology course which combines training in both subject specific methods and interdisciplinary teaming methods. Utilizes both pedagogical and practical experiences from multiple instructors selected from the colleges of Education, Arts and Sciences, and secondary schools to train students in a variety of appropriate strategies to utilize with secondary students.

EDSS 547 B

This course is designed in a seminar format to continue focusing intensively on the discipline of World languages. In this course, students will continue to explore theories and strategies for teaching all facets of world languages: speaking, listening, reading, writing, thinking, and collaborating (although these are artificial separations), paying particular attention to scaffolding student learning for access and success. Students will be required to apply their learning in related assignments and fieldwork experiences during student teaching and/or observations.

This course also involves the practical application of the underlying theories and issues pertaining to second/foreign language education and the teaching of Heritage Languages. Students will participate in lesson development, peer teaching experiences, materials development, textbook evaluation, and test construction appropriate for the teaching of foreign languages and the teaching of Spanish to Native Speakers. Students are required to do additional reading and to submit five annotated bibliographies of articles from foreign language journals/Heritage Language journals from the last three years or complete an analysis of four professional publications.

Course Goals

As a result of this course, you will be able to demonstrate the following:

- 1) Explain the basic terms, philosophies, problems, issues, history, and practices related to the teaching of World languages in the US.
- 2) Demonstrate understanding/application of the national standards for Foreign Language education.
- 3) Explain the theoretical framework upon which Foreign Language education is founded.
- 4) Demonstrate understanding of existing student identification, assessment, and language designation/levels for Foreign Language in the USA.

- 6) Demonstrate understanding of Foreign Language and Heritage Language education and their implications for curriculum, instruction, and educational policy.
- 7) Explain the meaning of culture and the necessity for cultural convergence in schools.
- 8) Use Service-Learning techniques to create a more just and humane learning environment, and help students in their growth and development as human beings.

Course Objectives

- 1. Student teachers create a bank of activities for their classroom addressing the needs of groups of students with different achievement levels in L1 and L2.
- 2. Students create a list of resources available through their school, district or county office,
- 3. Student teachers analyze and evaluate curriculum they are currently using and provide suggestions for improvement.
- 4. Student teacher develops lesson models incorporating different second language instructional methodologies and other approaches such as cooperative learning.
- 5. Students produce a lesson using video technology (camcorder, video, and videodisc)
- 6. Student teachers develop assessment tools using different approaches
- 7. Student teachers are able to incorporate Service-Learning in their lesson planning and classroom setting

<u>Unique Course Requirements:</u> Community Service Learning

Community Service Learning is an integral part of this class. Community Service Learning engages students in active learning experiences that enhance classroom instructional activities, while addressing social, economic, political, health, and environmental needs of people in the community. Students learn while doing and while reflecting on what they do.

A unique aspect of this course is a focus on the educational needs of children in developing countries. In a unique collaboration between CSUSM's College of Education and bilingual Mayan schools in Guatemala, the students enrolled in this course are provided with an opportunity to participate in an international service-learning project called "Solidarity-not Charity" as part of the Service Learning component of the course.

Texts and Materials

Required Texts

- 1. Shrum, J.L. & Glisan, E.W. (2000). <u>Teacher's handbook: Contextualized language instruction</u>, <u>2nd Edition</u>, Heinle and Heinle. ISBN/ISSN 08384-1465-6

<u>FLTEACH</u>- http://www.cortland.edu/flteach/welcome.htmlx All students should subscribe for at least a three-week period. The topic of FLTEACH, a listserv founded in 1994 by Jean LeLoup and Robert Ponterio, is foreign language teaching methods including high school/college articulation, training of student teachers, and curriculum. Current membership includes colleagues across the country as well as around the world. In order to subscribe:

Send a message to: LISTSERV@listserve.acsu.buffalo.edu

In the message put only the following: SUBSCRIBE FLTEACHfirstnamelastname

Example: SUBSCRIBE FLTEACH maryjones

Send the message just like that- no signature or anything else. You will get a welcome message by return e-mail with instructions on how to use FLTEACH. You might want to consider other options that are available such as by subscribing to the DIGEST option, you will get messages only once a day under one heading "FLTEACH" (This option is highly recommended in order to receive the most information with the list text)

Grading

Grading Scale: A=90+, B=80-89, C+=77-79, C=73-76, C-=70-72, D+=67-69, D=63-66, D-=60-62, F=59 or lower.

<u>Submission Schedule</u>: Work submitted within one week late will be reduced by one letter grade. Work received over one week late receives no credit.

<u>Grading Emphasis</u>: Each written assignment will be graded approximately 80% on content and context (detail, logic, synthesis of information, depth of analysis, etc.), and 20% on mechanics (grammar, syntax, spelling, format, uniformity of citation, etc.). All citations will use APA format.

Assignments

Attendance & Participation	10 points
Commercial/Public Announcement lesson	10 points
Participatory Research activity	20 points
CALLA Unit and Reflective Statement	50 points
Outcome Assessment	10 points

Assignments:

All assignments are due on the dates indicated. Assignments must be typewritten/word processed, double-spaced and with standard margins. It is expected that all assignments will reflect university-level composition and exposition. Use of electronic spelling and grammar checking is encouraged. Assignments may be submitted via e-mail as enclosures. If you choose to submit your work electronically, please send it to the e-mail address indicated, to ensure timely receipt and response. Text should be readable by MS Word 2000 (Windows XP). If submitting in paper form, submit 2 copies of all work - one will be returned to you with a grade and the other will be retained on file. Visuals and/or poster size assignments will not be collected.

Integrated Thematic CALLA Unit Plan (50 points) - Providing rigorous academic instruction that also facilitates World language acquisition is critical to the academic achievement of World language learners. This assignment will provide you with an opportunity to demonstrate ways in which curriculum and instruction, while remaining grade level appropriate, can be modified so that it is comprehensible to World language Learners. Parts of this assignment will be done in class and thus collaboration is highly encouraged. You will design a unit of at least three sequential lessons that employ CALLA methodology. Lesson plans, should be formulated to meet the needs of Foreign Language Learners. This project is due the day you present your interactive lesson to the class. Here is the basic format for this assignment:

- I. THEMATIC UNIT OVERVIEW: Using the Multicultural Literature assignment as a starting point, you will provide an overview of the following (Template to follow):
- 1. Describe the target students' grade level(s), language level(s), program placement information.
- 2. Identify the **major concepts** that you want children to learn in the unit.
- 3. Identify the areas of curriculum (**content**) you will use by citing specific standards and objectives of the content area. What objectives in the content areas will students have to meet in order to learn the major concepts?
- II. SAMPLE LESSON PLANS (See Appendix B): Develop a unit of lessons that will teach the critical concepts in your thematic unit. What are the objectives of your lessons, and how are those tied into the major concepts and objectives (content as well as language) that you have set for the entire unit? Be clear and specific so that someone will be able to take your lessons and replicate them. For each lesson plan, include the following:
- 1. Identify what you will do to get students **into the unit (Preparation & Presentation).** Next, identify what you will do to get students **through the unit (Practice).** Include what you will do to assess that students have learned the major concepts (**Evaluation**) and what students will do **beyond (Expansion**) the unit to extend their understanding. Or, use an alternate lesson plan format such as the 5-step plan.
- 2. Identify the **language and, separately, the content objectives objectives**, using the appropriate English Language Development standards. What language will the students use to learn the major concepts? What language objectives are your unit and lessons are targeting? State these clearly.
- 3. Identify the **scaffolding strategies** you have chosen to help students learn the major concepts. Be aware that students must also learn the strategies and be able to make them a part of their learning repertoire. Give **specific reasons** for choosing the scaffolding strategies you are using, that is, how these strategies build scaffolds to learning. Remember that English Only students will usually need only **one** scaffold, whereas English learners may need **more than one scaffold** depending on their schemata and level of language development in both languages. Use content learned in your other courses or your classroom practice to support your **rationale**.
- 4. Be sure to include an authentic **assessment** in your unit (summative or formative is fine). How will you assess that ELD students have met the objectives of the unit and the lessons? That is, how will students demonstrate understanding and how will you know they have understood? Have you developed a **rubric** and a clear description of what the various degrees of that rubric mean?

III. APPENDICES:

- 1. Include a **resources list**, a bibliography of all materials used, such as books, art prints, CD's, computer software, videos, etc.
- 2. The unit must also contain a **reflection.** What have you learned from the development of these lessons? If you have had the opportunity to implement any part of your unit, be sure to include reflections on the implementation as well as student samples, if available.

You may do a computer technology project, if that is the medium in which you wish to present your project. Check with me as to the programs you are using. For example, you can provide a videotaped version of one or more lessons in your unit, either with children in schools, or with student-aged neighbors/family acting as your students. Or, the class presentation itself can be videotaped. One person can do this – videotape a lesson or the presentation -- instead of writing a lesson plan and participating otherwise in the presentation. The person opting to do this needs to obtain waivers from all students being filmed (see me for waiver form), and be responsible for any editing using e.g., movie in the lab, if necessary, and providing me with a copy of the film. Video cameras are available for checkout in the media library.

The following are questions that will help you plan the unit, and also complete the reflective section of the unit:

- Does each lesson take into consideration the various language proficiency levels of language of the students?
- Are the objectives conceptually clear and tied to your instructional and learning strategies?

- Does instruction in each lesson use visuals, manipulative, realia, drama and scaffolding techniques that would facilitate understanding?
- Do the learning strategies incorporate group collaboration, cooperative learning activities, peer assistance, or other work group techniques?
- Is the content or subject matter in the lesson challenging?
- Does the lesson incorporate the culture, lived experiences, and if possible, the language of the students?
- How are the parents and community integrated into the unit?
- How does the lesson try to incorporate the 7 Intelligences and/or multiple modalities?
- Does your assessment directly measure your objectives in a conceptually clear manner?

Presentation of CALLA Unit - You will choose the mini- template and <u>one lesson</u> from your instructional unit to present to the class. For the purpose of this lesson, the class will become your students so be sure to let them know what grade level and other characteristics they have for the duration of the lesson (e.g., native language, length of time in the country). Be sure that the lesson is interactive. This means that the class (your "students") needs to actively participate in your presentation. You will have approximately one-half hour (this <u>includes</u> time for questions and comments). If you have had the opportunity to implement the unit, you may discuss the process and outcomes

TPE Reflective Statements

Even though we are referencing and seeking to understand several TPEs in this course, you are specifically responsible for writing a reflective statement for certain TPEs. Each assigned reflection should be primarily based on your CALLA lesson plan. The reflection should be approximately 250-350 words (the goal is to be succinct not to count words) and focus on a description, analysis, reflection sequence. You must attach your CALLA lesson plan as an artifact to support your ideas in the reflection for the reflective statements . You may attach other artifacts which also support your ideas. The same artifact may appear in multiple TPE reflections. When you submit each TPE reflection, you will receive feedback from me.

Each TPE reflective statement must include:

- 1. a description of the teacher candidate's learning with respect to the specific TPE being addressed
- 2. an <u>analysis</u> of how the attached artifact(s) is (are) <u>evidence</u> of that learning
- 3. a <u>reflection</u> describing personal significance of this learning and/or next steps in the journey toward
- 2. Commercial/Public Announcement lesson: Details to follow
- 3. Participatory Research activity on culture: Details to follow

4. <u>Outcome Assessment</u> (Critical Assessment Task)

This is your opportunity to examine your own learning. In 3-5 pages, you will:

- 1. describe your understanding of social justice, service-learning, and the teaching of World Languages;
- 2. discuss what you learned in the class that contributed to your understanding of the above mentioned items;
- 3. and discuss how your understanding of them will shape your attitudes, disposition, and demonstrated behaviors as a future teacher.

CALLA LESSON PLAN SEQUENCE (CH. 5)

Preparation: This stage requires activation of prior knowledge by finding out what the students already know and how they have been taught to approach the specific task. The students are told what the objectives of the unit are, and what is expected of them.

Activities should include: brainstorming, making graphic organizers, demonstrating how to do the project, role playing and prediction.

Presentation: The material to be covered needs to be presented in a variety of ways to address different learning styles. A positive approach is necessary to foster self-esteem and autonomy. Questioning is essential to encourage students in formulating questions for clarification purposes.

Activities: Questioning techniques, selective attention to key concepts, elaboration and inference to help comprehension.

Practice: During this stage students need to engage in interactive learning. Hands-on and exploration are essential.

Activities: Cooperative learning activities, Reciprocal teaching, brainstorming, organizational planning, and problem posing techniques.

Evaluation: This stage stresses self-evaluation through specific techniques. The teacher needs to provide samples of record-keeping activities to direct the process.

Activities: Summarizing, verifying previously made predictions, Self-check and correct, chart progress through learning log, cumulative check list on items covered, and self-reflection on progress made.

Expansion: In this stage the teacher incorporates class and home activities that build on previous knowledge and integrate newly acquired skills and information into existing concepts. Reflection is essential to connect past concepts with new information. Revision and re-creation of knowledge is also crucial at this point. Application of new knowledge into real life situation should be encouraged.

Activities: Systematic inquiry, reflection techniques, and discussion.

Infused Competencies

Authorization to Teach English Learners

The credential program at CSUSM has been specifically designed to prepare teachers for the diversity of languages often encountered in California public school classrooms. The authorization to teach English learners is met through the infusion of content and experiences within the credential program, as well as additional coursework. Students successfully completing this program receive a credential with authorization to teach English learners. (Approved by the CCTC in SB 2042 Programs Standards, August, 2002).

Teacher Performance Expectation (TPE) Competencies

The course objectives, assignments, and assessments have been aligned with the CTC standards for Single Subject Credential. This course is designed to help teachers seeking a California teaching credential to develop the skills, knowledge, and attitudes necessary to assist schools and district in implementing effective programs for all students. The successful candidate will be able to merge theory and practice in order to realize a comprehensive and extensive educational program for all students. You will be required to formally address the following TPEs in this course:

Primary Emphasis

TPE 1b-Subject Specific Pedagogical Skills for SS Teaching Assignment

TPE 3- Interpretation and Use of Assessments

TPE 4- Making Content Accessible

TPE 6c-Developmentally Appropriate Practices in Grades 9-12

TPE 6d-Developmentally Appropriate Practices for Special Education

TPE 9- Instuctional Planning

TPE10- Instructional Time

Secondary Emphasis:

TPE 2- Monitoring Student Learning During Instruction

TPE 5- Student Engagement

TPE 7- Teaching English Learners

TPE11- Social Environment

TPE12- Professional, Legal, and Ethical Obligation

TPE14 – Educational Technology

TPE15 Social Justice and Equity

GENERAL CONSIDERATIONS

Outcomes and Standards

The context for, and scope of this course is aligned with standards for the Cross-cultural Language and Academic Development (CLAD) endorsement, as articulated by the California Commission on Teacher Credentialing (CTC), and as approved by the faculty of the College of Education in development of the program approval documents. (Note: As of 2002, the CLAD competencies are collectively referred to as an *Authorization to Teach English Learners*.) Further consideration has been given to the alignment of standards for multicultural education as articulated by the National Council for Accreditation of Teacher Education (NCATE), the Interstate New Teacher Assessment and Support Consortium (INTASC), and the National Board for Professional Teaching Standards (NBPTS). Emphasis is placed on learning outcomes (what you know and can demonstrate) rather than on inputs (putting in "seat time", meeting minimum criteria for assignments, checking off tasks and activities), and how these outcomes correspond to your potential to enhance student learning as a new teacher.

Ability

Every student has the right to equitable educational consideration and appropriate accommodation. Students having differing ability (mobility, sight, hearing, documented learning challenges, first language/English as a second language) are requested to contact the professor at the earliest opportunity. Every effort will be made to accommodate special need. Students are reminded of the availability of Disabled Student Services, the Writing Center, technology assistance in the computer labs, and other student support services available as part of reasonable accommodation for special needs students.

Academic Honesty

"Students will be expected to adhere to standards of academic honesty and integrity, as outlined in the Student Academic Honesty Policy. All written work and oral assignments must be original work. All ideas/materials that are borrowed from other sources must have appropriate references to the original sources. Any quoted material should give credit to the source and be punctuated with quotation marks.

Students are responsible for honest completion of their work including examinations. There will be no tolerance for infractions. If you believe there has been an infraction by someone in the class, please bring it to the instructor's attention. The instructor reserves the right to discipline any student for academic dishonesty in accordance with the general rules and regulations of the university. Disciplinary action may include the lowering of grades and/or the assignment of a failing grade for an exam, assignment, or the class as a whole."

Appeals

Every student has the right to appeal grades, or appeal for redress of grievances incurred in the context of any class. Disputes may be resolved informally with the professor, or through the formal grades appeal process. For the latter, consult Dr. Kelly, Associate Dean.

Students with Disabilities Requiring Reasonable Accommodations.

Students must be approved for services by providing appropriate and recent documentation to the Office of Disabled Student Services Office (DSS). This office is located in Craven Hall 5205, and can be contacted by phone at (760) 750-4905, or TTY (760) 750-4909. Students authorized by DSS to receive reasonable accommodations should meet with their instructor during office hours or, in order to ensure confidentiality, in a more private setting.

University Writing Requirement

Every course at CSUSM must have a writing requirement of at least 2500 words(approximately 10 pages) which can be administered in a variety of ways. In order to comply with it, students must turn in an interactive journal, class reflections, TPE reflections and other pertinent written assignments.

Technology

This course infuses technology competencies to prepare our candidates to use technologies, emphasizing their use in both teaching practice and student learning. Candidates are expected to use technology professional practice, as well as researching the topics discussed in this course. Additional uses of technology will be discussed in class and emphasized in the course reader. The Governance Community of the College of Education adopted the following policy on 12/19/97:

NOTES

Students must meet the attendance requirements for the grade described. Attendance is a prerequisite for earning a particular grade: One absence = A, two absences = B, three absences = C.

College of Education Attendance Policy

Due to the dynamic and interactive nature of courses in the College of Education, all students are expected to attend all classes and participate actively. At a minimum, students must attend more than 80% of class time, or s/he may not receive a passing grade for the course at the discretion of the instructor. Individual instructors may adopt more stringent attendance requirements. If two class sessions are missed, or if the student is late (or leaves early) more than three sessions, s/he cannot receive a grade of "A." If three class sessions are missed, the highest possible grade that can be earned is a "C+." If extenuating circumstances occur, the student should contact the instructor as soon as possible to make appropriate arrangements. The course deals with complex material processed in a variety of ways. Structured interactions, group processes, oral presentations, guided discussion of readings, and self-disclosure exercises are the norm. Students are expected to have read assigned materials by the date indicated in the syllabus, and should be prepared to discuss readings individually or in variously structured groups. The degree of your engagement in these processes forms the basis for points assigned. Due to the fast paced and highly interactive nature of the course, regular attendance and full participation are expected: teaching and learning is difficult (if not impossible) if one is not present for and engaged in the process. Therefore, College Policy is amplified as follows: 1. Missing more than 1 class meetings will result in the reduction of one letter grade. (1 absence = A; 2 absences = B; 3 absences = C+) 2. Arriving late or leaving early on more than two occasions will result in the reduction of one letter grade. 3. Illness and emergency circumstances will be negotiated on a case-by-case basis. Students are expected to establish appropriate personal, academic and career-ladder priorities. These measures should not be considered punitive. Rather, they should be viewed as taking appropriate individual responsibility for one's own learning in a democratic, collaborative and reciprocal-learning environment. (Adopted by the COE Governance Community, December, 1997).

Grading Rubric:

"A" Students

- 1. Demonstrate serious commitment to their learning, making full use of the learning opportunities available and searching out the implications of their learning for future use.
- 2. Complete all assignments thoroughly and thoughtfully, receiving 3.5-4.0 average on all assignments.
- 3. Make insightful connections between all assignments and their developing overall understanding of social studies concepts; they continually question and examine assumptions in a genuine spirit of inquiry.
- 4. Students show high level achievement of course goals.

"B" Students

- 1. Simply comply with the course requirements and expectations.
- 2. Complete all assignments, usually thoroughly and thoughtfully, receiving 2.7 -3.4 average on all assignments.
- 3. Usually connect assignments to their developing overall understanding of social studies concepts; may be satisfied with accepting their learning as it is received without deeply examining assumptions or seeking a higher level of understanding of the implications.
- 4. Students show reasonable achievement of course goals.

"C" Students

- 1. Demonstrate an inconsistent level of compliance to course requirements and expectations.
- 2. Complete all assignments with limited thoroughness and thoughtfulness, receiving 1.7-2.6 average on all assignments.
- 3. Make limited connections between assignments and their developing overall understanding of social studies concepts; may not be open to examining assumptions or implications and may actually dismiss the importance of the understanding of social studies concepts.
- 4. Attempt, but show limited progress in achieving course goals.

"D/F" Students

Fail to meet the minimum requirements of a C. The specific grade will be determined based on a rate of assignment completion, attendance, etc.

NOTES

Because this course is part of an accredited program that leads to professional certification, students are expected to demonstrate behavior consistent with a professional career. In particular students must:

- 1. <u>Attend all class meetings</u>. More than one absence will lower your grade in the following manner: the final grade will drop by one-third letter for every absence. The College of Education Attendance Policy (stated on page 7) will be followed. Serious illness or other emergencies will be evaluated on a case by case basis. If you will miss a class session, please notify the instructor in writing (email) as soon as possible.
- 2. <u>Arrive on time</u> just as you would at a school site. Late arrivals to and early departures from class **will alter the final grade**.
- 3. <u>Prepare carefully for class</u>. Be ready to discuss readings and assignments thoughtfully. All voices are valued in our classroom community. Please be sure we get to hear your thoughts on the topics we cover.
- 4. Complete all assignments on time. Late assignments will receive a 20% reduction in points for each day late. Occasionally a student may be asked to revise an assignment. If so, the revised work must be submitted no later than one week after it was returned and may not be eligible for full credit. If you are absent when an assignment is due, you may submit the work via email (except for Physical Model) so that it is not counted late. Receipt of the assignment will be returned by the instructor (please request return receipt from your toolbar)
- 4. <u>Interact professionally and collaborate responsibly</u> with your colleagues. Teacher education is a professional preparation program and students will be expected to adhere to standards of dependability, academic honesty and writing achievement.

MINI UNIDAD DE ARTES DE LENGUAJE

Dr. Rosario Diaz-Greenberg COE/CSUM

Una leyenda de El Salvador

CONCEPTOS PRIMORDIALES

- 1. Diferentes culturas tienen leyendas que reflejan la lucha entre el bien y el mal.
 - 2. Podemos aprender acerca de cada cultura al leer las leyendas de su pueblo

OBJETIVOS LITERARIOS:

Disfrutar y valorizar una leyenda de El Salvador, *Los perros mágicos de los volcanes*. Analizar las características de una leyenda en donde las fuerzas del bien luchan contra las fuerzas del mal, y donde al final triunfa el bien sobre el mal. Comparar la estructura de esta leyenda con la estructura de otras leyendas.

Hacer una lluvia de ideas acerca de algunas historias donde el bien triunfa contra el mal

OBJECTIVOS DE LENGUAJE

Escuchar y leer una leyenda de El Salvador, Los perros mágicos de los volcanes. Desarrollar una lista de vocabulario. Resumir la leyenda oralmente y por escrito. Contar otra leyenda que los estudiantes conozcan.

ESTRATEGIAS DE APRENDIZAJE:

Elaboración de conocimiento previo; estrategias de enseñanza reciproca (predecir, preguntar, auto monitoreo y resumir); cooperación; auto-evaluación.

MATERIALES:

Mapa de Centro América que muestre donde queda El Salvador, ilustraciones de trajes típicos, fotos de ranchos, objetos artesanales, transparencias de ilustraciones y el texto de la leyenda, textos de otras leyendas y libros de leyendas de otras partes del mundo.

Parte 1

Preparación: ¿Qué saben Uds. acerca de El Salvador?

Coloque en una esquina todo el material referente a El Salvador. Haga una lluvia de ideas con los estudiantes acerca de sus conocimientos sobre este país. Escriba la lluvia de ideas en la pizarra. Reacuérdeles a los estudiantes que esta es una estrategia que sirve para activar el conocimiento previo y así entender y disfrutar mas la leyenda. Divida a los estudiantes en grupos para que hagan un mapa semántica de lo que ya saben sobre el país.

Introduzca la leyenda y dígales a los alumnos que van a escuchar una leyenda acerca de la lucha entre el bien y el mal y como el bien triunfa sobre el mal. Introduzca el siguiente vocabulario por adelantado tratando de que los alumnos deduzcan el significado de las palabras al usarlas en contexto *cadejos*, *faldas*, *hechizar*, *cantimploras*, *centellantes*, *charreteras*, *furibundos*, *y chirriar*.

Presentación: Escuchen la primera parte de la leyenda

Instrucciones sobre la estrategia de aprendizaje que se va a utilizar: Muestre a los alumnos una transparencia de la portada del libro y dígales: "Antes de leer la historia vamos a hablar sobre el titulo y las ilustraciones en la portada para predecir de que se trata la historia, ya que el predecir nos ayuda a entender mejor el significado de lo que vamos a leer. Antes de leer un cuento, piensa en el titulo y mira las ilustraciones. Predice lo que puede pasar. Las predicciones ayudan a entender los cuentos". Trate que los alumnos le den ideas sobre la leyenda y escríbalas en la pizarra.

Lea la primera parte de la leyenda. Recuérdeles que ellos pueden disfrutar la historia aunque no entiendan todo el significado ya que lo más importante es entender la idea principal de lo que se lee.

Practica: Complete una lista de Comprensión de lectura

Divida a los estudiantes en grupos y repártales la hoja de comprensión de lectura para que ellos puedan dialogar acerca de las respuestas correspondientes.

Evaluación

Haga que cada uno de los estudiantes complete la hoja de comprensión de lectura.

Expansión

Como tópico de composición pida a los estudiantes que escriban un final diferente para la historia.

Parte 2

Preparación: Prediga lo que va a suceder después en la historia.

Discuta las predicciones hechas por los alumnos y pídales que den las rezones por las cuales las hicieron.

Presentación: Aprenda cuatro estrategias de lectura

Modele las estrategias de enseñanza reciproca. Escoja a tres alumnos y que pasen al frente del salón de clase. En el pizarrón escriba:

Resumir. Preguntar. Identificar partes difíciles. Predecir. Explicar que el profesor y tres estudiantes compartirán la enseñanza de la primera mitad del cuento resumiendo, preguntando, identificando secciones que no han quedado muy claras, y prediciendo lo que va a suceder después. Pedirles a los estudiantes que se fijen en las estrategias que el grupo va a mostrarles ya que conocen la primera parte del cuento. Cada estudiante recibirá una fotocopia del texto para poder leerlo con el profesor. El texto se debe separar en cuatro secciones.

El profesor se sienta en un círculo con los tres estudiantes. El grupo lee el texto en silencio, sección por sección. El profesor modela la primera sección y después cada uno de los tres alumnos se turna enseñando las tres secciones restantes.

Practica: Lean la segunda parte de la leyenda: Magic Dogs of the Volcanoes

Los estudiantes se sientan en grupos de cuatro y usan el método de enseñanza reciproca para leer el resto del cuento.

Pida a cada grupo que escoja tres palabras nuevas que quisieran aprender el

significado de ellas. Escriba las palabras en el pizarrón y pida a los estudiantes que hagan inferencias sobre el significado de las dichas palabras.

Repasen las diferentes partes del cuento que deben ser incluidas en una grafica del cuento: Personajes, lugar y tiempo, problemas, eventos, soluciones al problema y moraleja. Todavía en sus grupos los estu8diantes harán un mapa del cuento sobre la segunda parte de la leyenda. Recuerden a los estudiantes que el propósito de la grafica del cuento es para ayudarles entender y recordar mejor el cuento.

Evaluación:

Los estudiantes cuentan de Nuevo la historia a un compañero.

Expansión

Para tarea, que el estudiante entreviste a un miembro de la familia sobre una leyenda de su país y que tomen notas. En clase, durante Writer's Workshop, los estudiantes componen, revisan, y publican su leyenda.

Parte 3

Preparación: De que otras leyendas saben?

Pídales a los estudiantes que piensen de otras historias donde lo bueno trata de vencerle a lo malo. El profesor puede guiar a los estudiantes. Escriba las ideas de los estudiantes en el pizarrón.

Presentación: Discutan sobre otros cuentos donde lo bueno triunfa sobre lo malo.

Explíqueles a los estudiantes que este tipo de cuento donde lo bueno triunfa sobre lo malo es algo muy antiguo y se ha contado por todas partes del mundo. En este

momento el profesor puede presentarles leyendas adicionales a los estudiantes que van relacionadas con esta idea principal. Comparen y contrasten algunas de estas leyendas a la leyenda: Magic Dogs of the Volcanoes y hagan una tabla de comparación en el pizarrón.

Práctica: Lean más leyendas

Pídales a los estudiantes que escojan una leyenda para leer. Que formen grupos pequeños y que hagan un cuento grafico. Entonces ellos podrían usar el cuento grafico para contar de nuevo el cuento a alguien de un grupo diferente.

Evaluación:

- 1. Los estudiantes completan el cuaderno de aprendizaje, después discuten en grupo.
- 2. Recuerden a los estudiantes que una auto-evaluación es una estrategia de aprendizaje, recordándoles de lo que han aprendido y lo que todavía tienen que aprender. Los estudiantes proceden a completar la auto-evaluación.

Expansión:

Tengan una discusión sobre lo que aprendieron los estudiantes durante esta unidad. Hágales preguntas tales como: ¿Ha leído jamás un cuento sobre animales similares? Pueden existir estos animales en otras culturas?

Han leído Uds. sobre animales similares a los cadejos en otras historias? ¿Creen ustedes que animales como los cadejos existen en otras culturas?

ASSESSMENT

Incluyan los siguientes trabajos de los estudiantes en sus portafolios:

- 1. El cuaderno de aprendizaje del estudiante.
- 2. Cuentos gráficos de las leyendas leídas en práctica 3.
- 3. Una leyenda escrita durante la sesión de escritura creativa.
- 4. Registro de Evaluación como el que se incluye abajo.
