

California State University San Marcos
COLLEGE OF EDUCATION
Spring 2010 EDMX 633 Daytime Section

COURSE: EDMX 633 (CRN #22499)

Community Access through Supported Environments (CASE):
Positive Behavioral Supports and Functional Assessment, Curriculum, and Instruction
(3 credit units)

CLASSROOM: Kellogg Library Room 5102

INSTRUCTOR:

Dr. Jacqueline S. Thousand
Office Hours: By appointment
e-mail: jthousan@csusm.edu

University Hall 208
Phone: 760-533-1744 (cellular)

I. COURSE DESCRIPTION, COLLEGE MISSION, and FURLOUGH STATEMENT

This course examines methods and strategies for facilitating learner self-determination and access and growth in academic, social relationship, communication, personal, and community skill domains. A focus is on the development and implementation of effective discipline models and practices, positive behavioral support plans, and interventions that support students' behavioral, social, and motivational growth. Family-centered assessment, social skill and Multiple Intelligences development, student empowerment, conflict resolution, and relationship and friendship development also are emphasized.

Course Prerequisite

Admission to the Level I Education Specialist Credential Program.

College of Education Mission Statement

The mission of the College of Education Community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research, and ongoing service. Our practices demonstrate a commitment to student-centered education, diversity, collaboration, professionalism, and shared governance.

Furlough Statement

The devastating California state budget cuts prohibit all CSUSM faculty and staff from working nine days per semester during the 2009/10 academic year. Faculty are not allowed to work (e.g., teach, consult with students, answer emails, etc.) on furlough days to satisfy legal and ethical requirements of the California Labor Code. Despite the furlough days, you shall receive a quality education that allows you to achieve your student learning objectives. My furlough days for the spring semester are the following: January 19th, February 11th and 26th, March 3rd, 4th, 5th, and 25th, April 1st and 5th.

II. PERFORMANCE GOALS

In this course, participants demonstrate knowledge and performance competence to assist students with special needs in succeed in inclusive educational and other community environments. Specifically, participants demonstrate knowledge and skills related to:

1.0 Practices to Promote Community, Self-Discipline, and Positive Behavior Supports

- 1.1 the use of formal and informal cooperative group learning structures and class meetings to create a caring and cooperative classroom climate
- 1.2 the use of a “pyramid” hierarchy of classroom management and intervention skills to prevent behavioral disruptions and create a climate of responsibility
- 1.3 analyze the extent to which a school and district provides a comprehensive system of behavioral support for students and recommend improvements in the system
- 1.4 the design, implementation, and evaluation of programs to teach and/or strengthen appropriate behavior and reduce unacceptable behavior through observation, ecological analysis, and interpretation of the communicative intent of behavior
- 1.5 laws (e.g., the Hughes Bill), regulations, and ethics governing behavioral support of students with special needs from diverse cultural, linguistic, and socioeconomic background
- 1.6 the use of peer tutoring, partner learning, and social justice curriculum to promote natural peer supports and peer mediated instruction
- 1.7 student, family, and teacher involvement in IEP, ITP, and age of majority rights activities at the secondary level

2.0 Social Relationships

- 2.1 methods for creating a positive school climate, developing a community of learners, and facilitating social behavior in diverse educational settings
- 2.2 the integration of social skills and social skill curricula into the general education curriculum and cooperative group learning and partner learning structures
- 2.3 methods for teaching interpersonal skills, including conflict resolution
- 2.4 the use of Circles of Friends and other friendship-building methods to expand social networks
- 2.5 the use of assessment methods such as MAPS to identify IEP goals and objectives that address valued life outcomes, including social relationships
- 2.6 the preparation of students to be self advocates, using principles of self determination
- 2.8 assisting students and their families and friends in the development of students’ positive self-image and interpersonal relationships

3.0 Effective Communication and Self Determination

- 3.1 student empowerment and the development of communication to promote choice making, independence, and self-advocacy
- 3.2 accurate interpretation of the communicative intent of student behavior
- 3.3 self-determination as a concept and practice in schooling
- 3.4 the identification of communication supports for students with communication challenges

4.0 Inclusion in General Education Curriculum and Community

- 4.1 the use of creative problem solving to formulate supports for students who present behavioral challenges or who have disabilities so they can meaningfully participate in shared activities in general education and community environments
- 4.2 the use of ecological analysis, functional analysis of behavior, and principles of positive behavioral supports to facilitate participation in inclusive settings
- 4.3 the use of MAPs and a Multiple Intelligences approach to assessment and programming in developing instruction and Individualized Transition Plans for post-secondary employment, living, and continuing education opportunities

III. PROFESSIONAL AND ADMINISTRATIVE REQUIREMENTS

- 1. “Person-first” language (e.g., “Student with Down syndrome” rather than “Down syndrome student”) must be used throughout all written and oral assignments and discussions.
- 2. Examine the course website at least twice weekly for messages and newly posted materials and resources. Download materials needed for each class *prior* to class and bring to class all required resources.
- 3. Word-process all written documents. Keep an electronic copy of all work. You will want these for your records and use as TaskStream and professional portfolio entries.
- 4. Complete and submit all assignments on the due dates for full credit. If you have extraordinary circumstances that impact completion of your assignments or have questions or concerns, please contact the instructor(s) immediately.
- 5. Participate actively in class discussions and group activities and demonstrate positive interpersonal skills with classmates, the instructors, and guests.
- 6. Select a class “buddy” to ensure you receive handouts and information if you miss class.
Buddy: Telephone: e-mail: Fax:
- 7. TaskStream Electronic Portfolio. Students must register online for TaskStream access for a minimum of one year. Fees are paid online at www.TaskStream.com. This is a requirement of every credential candidate. Candidates learn how to use this site in EDUC 422. Students post selected assignments and make reflective comments in response to Education Specialist Level I Preliminary standards identified in the syllabus. Once you have an account, click on “My Programs.” Under the list on the top of the page find “Self-Enrollment Options.” Click here. A box appears asking for a program code. The Education Specialist Level I Auto Enrollment Code is 2FSA56.
- 8. Academic Honesty Policy and Plagiarism. Students are expected to adhere to standards of academic honesty and integrity, as outlined in the Student Academic Honesty Policy. All assignments must be original work, clear and error-free. All ideas/material that are borrowed from other sources must have appropriate references to the original sources.

Any quoted material should give credit to the source and be punctuated accordingly. The instructor reserves the right to discipline any student for academic dishonesty, in accordance with the general rules and regulations of the university. Disciplinary action may include the lowering of grades and/or the assignment of a failing grade to the assignment or the class as a whole.

IV. SCHOLASTIC REQUIREMENTS

College of Education Attendance Policy

Due to the dynamic and interactive nature of courses in the COE, all students are expected to attend and actively participate in all classes. Students must attend at least 80% of class time to receive a passing grade for the course (at the discretion of the instructor). Should there be extenuating circumstances, notify the instructor immediately. *(Adopted by the COE Governance Community, December, 1997).*

Grading Scale (in percentages):

A: 94-100 A-: 92-93 B+: 89-91 B: 86-88 B-: 84-86 C+: 81-83

NOTE: The minimum acceptable grade for a course in the professional education credential sequence is C+. A “B” average must be maintained for continuation in the program.

V. COURSE FEATURES

Authorization to Teach English Learners

This credential program has been specifically designed to prepare teachers for the diversity of languages often encountered in California public school classrooms. The authorization to teach English learners is met through the infusion of content and experiences within the credential program, as well as additional coursework. Students successfully completing this program receive a credential with authorization to teach English learners.

Students with Disabilities Requiring Reasonable Accommodations

Students must be approved for services by providing appropriate and recent documentation to the Office of Disable Student Services (DSS). This office is located in Craven Hall 5205, and can be contacted by phone at (760) 750-4905, or TTY (760) 750-4909. Students authorized by DSS to receive reasonable accommodations should meet with their instructor during office hours or, in order to ensure confidentiality, in a more private setting.

Academic Writing Requirement

This course ensures that the university’s minimum 2,500-word per course writing requirement is met through the course assignments, reflections, and TaskStream postings for Level I Education Specialist standards assigned to this course.

Education Specialist Level I Standards

Course objectives, assignments, and assessments are aligned with CCTC Mild/Moderate and Moderate/Severe Education Specialist Preliminary Credential Standards. You are held accountable for demonstrating competence with regard to Standards 15, 22, and 24 by postings on TaskStream the assignments indicated below along with a written narrative, composed in the format prescribed by the program. You may not receive credit for this course if TaskStream postings and narratives are not submitted by the end of the semester.

Standard 15 - Managing Learning Environments (TaskStream - Discipline Pyramid)

Each candidate demonstrates knowledge and skills in managing learning environments for diverse learners that are safe and effective and that facilitate positive self-esteem and self-advocacy. The candidate demonstrates knowledge of behavior management strategies, varying communication styles that impact learning, and laws and regulations for promoting behavior that is positive and self-regulatory.

Standard 22 - Assessment and Evaluation of Students (TaskStream - MAPs)

Each candidate demonstrates knowledge and skills related to using and communicating the results of a variety of individualized assessment and evaluation approaches appropriate for students with mild/moderate/severe disabilities. Each candidate is able to make appropriate educational decisions on the basis of a variety of non-biased standardized and non-standardized techniques, instruments and processes that are functional, curriculum-referenced, performance-based, and appropriate to the diverse needs of individual students. Candidates utilize these approaches to assess the developmental, academic, behavioral, social, communication, vocational and community life skill needs of students, and the outcomes of instruction.

Standard 24 - Positive Behavior Support (TaskStream – Reflection on Positive Behavior Support Plan Development)

Each candidate demonstrates competence in establishing and maintaining an educational environment that is free from coercion and punishment and where interventions are positive, proactive, and respectful of students. Each candidate demonstrates the ability to design and implement positive behavioral support plans and interventions based on functional analysis assessments.

VI. BOOKS, WEB SITES, AND MATERIALS NEEDED FOR CLASS

Texts and Text Abbreviations

Kagan, S., Kyle, P., & Scott, S. (2004). *Win-win discipline: Strategies for all discipline problems*. San Clemente, CA: Kagan Publishing. (KKS)

Villa, R., Thousand, J., & Nevin, A. (2010). *Collaborating with students in instruction and decision making: The untapped resource*. Thousand Oaks, CA: Corwin Press. (VTN)

Note: This text is posted on the course website, as it is not yet available to the public. You get a great deal; it is free!

VII. CLASS SCHEDULE WITH READINGS AND ASSIGNMENT DUE DATES

The class schedule appears below. To the right of each class session, date, and topic is a listing of the readings and assignments due for that class. Text names are abbreviated by first initial of authors (e.g., KKS, VTN) and pdfs and other documents that are posted on the course website are referred to as labeled on the website. Please bring required materials to class as they are used in the class sessions.

NOTE: Contingent upon the nature of the assignment and/or the discretion of the instructor, assignments submitted late may not receive full credit.

CLASS	DATE	TOPIC	READINGS	ASSIGNMENTS
Class 1	01/25	Discipline pyramid; H.S. IDEIA assignment TaskStream; Moodle	KKS 18	Purchase KKS
Class 2	01/25	Discipline vs. punishment Prevention, rules, routines		Download VTN Syllabus review
Class 3	02/01	Class meetings; Quick recovery & next step low level interventions	See reflection #1 prompt Optional: KKS 6.4-6.27 & KKS 14.14-14.26	Reflection #1
Class 4	02/01	Conflict resolution; Oral and written planning;	See reflection #2 prompt Optional: KKS 14.56- 14.70	Reflection #2
Class 5	02/08	Social skills instruction Modeling of social skills lesson	See reflection #3 prompt See reflection #4 prompt Optional: KKS 20	Reflection #3 Reflection #4
Class 6	02/08	Self-determination; Circles & MAPs MAPs assignment Sign up for Reflection #6	MAPs materials on course website VTN 7	

CLASS	DATE	TOPIC	READINGS	ASSIGNMENTS
Class 7	02/15	Student-led IEPs and more	See reflection #5 prompt Student-led IEP materials on course website	Reflection #5
Class 8	02/15	Goal structures; PIGSFace elements of CGL lessons; Quick CGL structures	Optional: KKS 19 (CGL & MI)	Draft Social Skills Lesson
Class 9	02/21	Reflection #6 jigsaw; Experience a lesson	See reflection #6 prompt	Reflection #6 jigsaw
Class 10	02/21	In-class CGL lesson plan design; peer tutoring and co-teaching	Optional: VTN 3 & 4 (Students as peer tutors and co-teachers)	
	03/01	NO CLASS MEETING	HS IDEIA & MAPs	
Class 11	03/08	Sensory integration & social stories <i>Guest: Kathy Montilluer</i> In-class design of Behavior Support Plan	Sensory integration & social stories pdf Austin BSP pdf Optional: KKS 10 - 12	Final Social Skills Lesson; H.S. IDEIA
Class 12	03/08	In-class design of Behavior Support Plan continued	Austin BSP pdf Optional: KSS 16 & 17 (FBA, BIP)	TaskStream Standard 24 (Post reflection on in-class BSP at end of class)
THE FOLLOWING CLASSES ARE ON MONDAY EVENINGS				
Class 13 5:15 - 6:30 pm UH 373	04/12	Reflection #7 More PBS Share Discipline Pyramid <i>Guest: Jan Israel</i>	See reflection #7 prompt and Reflection #7 pdf on course website Optional: KSS 16 & 17 (FBA, BIP)	Reflection #7; Discipline pyramid; TaskStream Standard 15
Class 14 5:15 - 6:30 pm UH 373	05/03	MAPs sharing; Course evaluations & celebration		MAPs; TaskStream Standard 22

VIII. ASSIGNMENTS

Weekly Class Attendance and Participation	(70 points)
Reading Reflections	(30 points)
Social Skills Lesson Plan	(15 points)
High School IDEIA Observation and Interview	(15 points)
Discipline Pyramid	(14 points)
<i>TaskStream – Standard 15</i>	(05 points)
Positive Behavior Support Plan	(16 points)
<i>TaskStream – Standard 24</i>	(05 points)
MAPS	(25 points)
<i>TaskStream – Standard 22</i>	(05 points)

Total Maximum Points: 200 points

Weekly Class Participation (5 points/class X 14 classes = 70 points maximum)

The purpose of this requirement is to ensure active participation during class sessions and opportunities to demonstrate collaborative teaming and cooperative group small group interpersonal skills. Because group activities and other active learning procedures are used to introduce and reinforce substantial amounts of material addressed in this course, regular attendance and participation is critical. If a participant needs to miss part or all of a class, the instructor must be informed in advance. Participants are responsible for requesting a makeup assignment for any absence. A student is not able to pass this class if 20% or more of the session time is missed except in rare cases of extreme hardship, with expected competence demonstrated.

Reflections/Lesson Applications (30 points maximum)

The purpose of the reading reflections and lesson implementation applications is to provide participants with regular opportunities to demonstrate their understanding of critical aspects of the readings and to apply lesson plans to professional practice. Each reflection must be word processed and turned in on the date due for full credit. You also must be prepared to discuss reflections in class in order to receive full credit.

Criteria for Written Products:

- The content of each assigned reading is clearly referred to in the text of the reflection.
- Higher order thinking skills that goes beyond reiteration of content (e.g., application, analysis, synthesis, evaluation of content) is clearly demonstrated.
- Spelling, grammar, and mechanical aspects of writing are accurate.
- Thoughts and writing are well organized; section headings are provided as needed.
- The document is word-processed.
- The document is turned in on or before the date due.

Reflection Prompt Questions and Due Dates:

See prompt questions for the reflections on this and the following pages.
See class schedule for due dates.

Reading Reflections & Lesson Applications (30 points maximum)

Reflection #1	4 points maximum
Reflection #2	4 points maximum
Reflection #3	4 points maximum
Reflection #4	4 points maximum
Reflection #5	2 points maximum
Reflection #6	5 points maximum
Reflection #7	7 points maximum

Extra Credit Option (3 maximum extra credit points)

You may earn an optional 3 extra credit points by a) implementing your social skills lesson plan and preparing a reflection on your implementation or b) reading an unassigned chapter in the KKS or VTN text and preparing a reflection on what you learned and how you will use the content. Other extra credit options may be negotiated with the instructor.

Reading Reflection #1 (4 points)

Read Chapters 1 and 9 of the Villa, Thousand, and Nevin (VTN) *Collaborating with students in instruction and decision making: The untapped resource* text. Which two of the rationale for collaborating with students in Chapter 1 are the most compelling for you? Why? Which of the strategies and tools presented in Chapter 9 are new to you? Which must you absolutely include in your OWN discipline pyramid? (See the 14-point discipline pyramid assignment in this syllabus. (2 or more pages)

Reading Reflection #2 (4 points)

Read pages iii – xxi and Chapters 1, 2, 3, & 7 of the KKS text. Create a graphic organizer to help you remember the 4 types of disruptions, the 7 positions, the 3 pillars, and key ‘win-win’ principles. (If you wish to use prepared graphic organizers, you can search the web for templates by googling “graphic organizer.” Find “thinking maps” graphic organizers at the www.bookladymel.com/thinkingmaps.htm website.)

Also write a 1-paragraph summary of how the information in these chapters and pages interface with the four dimensions of the Circle of Courage. To learn more about the Circle of Courage, see the summary on this course’s homepage; read Chapter 1 of VTN and google “Circle of Courage” and “Reclaiming Youth at Risk.”

Reading Reflection #3 (4 points)

Chapter 8 of the Kagan, Kyle, & Scott (KKS) focuses upon preventative procedures on the bottom of the discipline pyramid (see Figure 9.1 of Chapter 9 of VTN). Select *two* preventative procedures for *each of the 7 positions* (for a total of 14 procedures) that absolutely must be on the bottom level of your OWN discipline pyramid. Compose a brief rationale as to why you selected the procedures for each position.

Chapter 13 of the KKS text is a gold mine of structures and strategies for responding to the 7 positions. This reflection is designed to assist you to add to the levels (see Figure 9.1 of Chapter 9 of VTN) of your OWN discipline pyramid. Select *two*

strategies/structures for *each of the 7 positions* (for a total of 14) that absolutely must be on your discipline pyramid. Namely, 1) name each of the 14 strategies/structures you select; 2) indicate where on the five levels of the discipline pyramid each of the 14 strategies/structures belongs; and 3) compose a brief rationale as to why you chose the strategy/structure (i.e., how it will help students and/or you, as a teacher).

Reading Reflection #4 (4 points)

First read the parable on page 20.26 of the KKS text. Then carefully read Chapter 20 of the KKS text and Chapter 8 of the VTN text. Be creative and use your Multiple Intelligences to represent:

- a) what you learned about the development of social life skills including conflict mediation skills, and
- b) specific strategies you will use or life skills you will teach to develop your students' responsibility/response-ability.

Be sure that content of both chapters is clearly included in your representation.

Reading Reflection #5 (2 points)

Read Chapter 7 in the VTN text. In what ways might (IWWM) you as a general and/or special educator incorporate elements of MAPs, Student-Led IEPs and Personal Learning Plans into the curriculum, your instruction, and futures planning for students with and without IEPs?

Jigsaw Reflection #6: (5 points)

From VTN Chapter 2, read the two paragraphs of "The Four Phases of Planning and Implementing Formal Cooperative Group Lessons," the first paragraph of "Teacher Decisions at Each Phase of Planning and Implementation," and the one-page template for planning a formal cooperative lesson in Figure 2.1. Your instructor will assign to you a subset of the 14 teacher decisions (i.e., one of six sections - #1 and #2, #3 - #5, #6, #7 - #10, #11 & #12, #13 & #14) to teach to a small group of classmates who did not study your subset of decisions. In preparing to teach, create a 1-page handout that creatively represents what you consider to be the most important things to know and remember. Some decisions include illustrative stories, so be prepared to tell the stories. Make 7 copies of the handout, one each for your small group teammates and one for your instructor. You will have seven to eight minutes to teach your subset of decisions to your teammates. Remember to use all that you know about effective instruction (e.g., checking for understanding, visual representations, effective questioning) in your teaching so it is a lively demonstration of your teaching skills. Bring to class a blank copy of Figure 2.1 (also found as a word document on the course website, named "One-page Cooperative Group Learning Lesson Plan") for taking notes about the sections you do not teaching.

Reading Reflection #7: (7 points)

Before responding to the following questions, read all of the PBS pdf materials posted on the course web including the *Screening for Understanding* article. The first two questions require you to integrate information from the *Introduction to Behavior Supports and Behavior Support Plans* article and the *Responses to Intervention and*

Positive Behavior Support: Brothers from Different Mothers or Sisters with Different Mistresses? article. Based upon *all* of these readings, answer the following questions.

1. In your own words, what is a *manifestation determination*? When must it occur?
2. What *two* questions must an IEP team answer to determine if a behavior in question was or was not a manifestation of the student's disability? What information must be gathered and analyzed (see "Manifestation Determination Worksheet) in order to answer these two questions?
3. Given the discipline pyramid introduced in Chapter 9 of the VTN text and the description of the relationship between RtI and PBS offered in the "Brother from Different Mothers..." article, create a visual/graphic organizer that related the six layers of the pyramid with the three tiers of RtI for PBS.
4. The *Screening for Understanding* article elaborates upon the process for data gathering at Tier 2 and 3 of the PBS RtI pyramid in order to conduct an FBA, What are the various pieces of information you need to gather to accurately formulate a hypothesis as to the function of a behavior? How can that information be gathered?
5. What is the difference between a "slow trigger" and a "fast" trigger?" Provide two examples of a "slow trigger" and two examples of a "fast" trigger."
6. In developing a positive behavior support plan, what information does the *specific hypothesis* provide a behavior support team in planning an effective PBS plan? What information does the *global hypothesis* provide?
7. Given the specific and global hypothesis statements about Matt found in Figure 2 of the *Screening for Understanding* article, how well do the interventions in Table 3 "fit" Matt's situation? Justify your evaluation. What would you add or change? Provide a rationale for your suggestions.

Discipline Pyramid (14 points)

POST REPRESENTATION ON TASKSTREAM FOR STANDARD 15

This is your discipline with dignity "final exam." Given the discipline "pyramid" in Chapter 9 of the "Doing More with Less" text, identify all of the interventions, strategies, and instructional and curricular approaches that you know and have learned about thus far for each of the five levels of the pyramid – from prevention to individualized support plans. Be sure to use your reflections, lecture notes, readings, and your own experience when construction this reflection. Feel free to be as creative as you wish in your presentation. (For example, one student created a 3-ring notebook with dividers that included details on each intervention and room for new strategies to easily be added in the future; another student constructed a 3-D pyramid with strategies "housed" at each level.)

Positive Behavior Support Plan (16 points)

POST "REFLECTION" ON TASKSTREAM FOR STANDARD 24

Using forms provided with the "Austin" pdf from the course website, as a team create a Positive Behavior Support Plan for a student presented in an in-class scenario.

(Note: This is an in-class assignment. You will post your reflective response about the experience as an artifact for Standard 24 on TaskStream BEFORE the final class meeting.)

MAPs Implementation (25 points)

POST THE FOLLOWING WRITE-UP AND “EVIDENCE” OF THE MEETING (e.g., jpeg photos of the MAPs charts and participants) ON TASKSTREAM FOR STANDARD 22 BEFORE THE LAST CLASS MEETING.

The purpose of this assignment is to provide you with an opportunity to apply and refine the assessment skills discussed in this course emphasizing the importance of obtaining information from the student, family members, and friends.

Each participant develops a “MAPs” report for one focus individual. Although the ideal focus individual would be a student identified as eligible for special education, because you may not be the service coordinator for such a student, you may need to be creative and identify a person for whom the MAPs process would make a positive contribution to the person’s life. If it is not possible to perform this assignment with a student you serve, solicit the participation of a friend, family member, or a youth not eligible for special education to be the focus person. Be sure to also invite as many significant others (i.e., family members, friends) as possible as well as appropriate professionals to participate in the MAPs process. The more the merrier. Your write up should be comprehensive and must include the following components.

1. What was the rationale for choosing this student/person? Describe the person in terms of gender, age, strengths, and any other *relevant* characteristics such as educational needs or living situation. Describe the context of the MAPs process. Who was present? Where did it occur? (Note: Whenever possible, conduct the interview in the individual’s home) (4 points)
2. For each of the steps of the process, organize and report in writing the responses to MAPs questions and any other questions you asked. Document the decision-making process used to identify and prioritize needs and goals. Also identify potential next steps. (7 points)
3. For the “Plan of Action,” recommend specific areas or skills to work on based upon the outcomes of the MAPS process. (9 points)
 - a) Translate the outcomes of the MAPS session into 3 goals.
 - b) At least one goal must relate to relationships, friendships, and/or social skills. At least one goal must relate to life beyond the current school context (e.g., recreational, living, or vocational life in the community, post-secondary life, transition to the next school). The remaining goal must directly relate to an important theme that emerges from the MAPS meeting.
 - c) Each goal must have a positively stated baseline or present level of performance (**PLOP**) statement, as on an IEP form.
 - d) Each goal must have at least *two* accompanying interim *objectives* or *benchmarks* that lead to the achievement of the goal.
4. Write a reflection on the experience that includes these four elements (4 points):
 - a) your own reaction to the process,

- b) the reaction of the participants,
- c) ways in which you would “better” prepare for or conduct a MAPS session in the future, and
- d) any other feelings and thoughts about how to promote family-centered and student-led assessment and planning approaches in IEP development and futures planning.

Criteria for Evaluation (See rubric and also consider the following):

- Completeness and organization of information requested. Includes a title page, a section for each of the steps of the MAPS as well as the report described in items 1 - 4 above.
- Sensitivity and respect for student and family.
- Evidence of input and feedback from MAPS participants (e.g., photo of the MAPS posters and a written summary of the contents of each poster, direct quotes of participant reactions).
- Word-processed and appropriate use of standard English, grammar, spelling, mechanics, and so forth (1 point)

Social Skills Lesson Plan (15 points)

The purpose of this assignment is to ensure that participants can design a social skills lesson that can be used as a component of a cooperative group lesson or as a “stand alone” lesson that prepares students to use a social skill in a cooperative learning context. A direct instruction lesson format provided by the instructor will be used to organize this lesson. The *draft* of this lesson will be returned for revisions. The *final draft* must include requested revisions. Three extra credit reflection points may be earned for delivering and submitting a written reflection about the delivery of the social skills lesson.

High School Special Education: Implications of IDEIA and More (15 points)

Many credential candidates do not have a special education high school field placement. Nevertheless, candidates are expected to understand the unique aspects and challenges of supporting high school-aged youth with special education needs. Develop these understandings through this self-directed field experience.

A minimum requirement is that you spend the equivalent of a full school day in one or more high schools, shadowing one or more special education staff members, interviewing students and staff, attending after-school events, and observing classes which students attend. You will not be observing a particular student, so will not need specific permission for observations. Remember, however, in all of your note taking and in any written product describing your high school experiences, you are to maintain confidentiality and not refer to a student by name.

The protocol for arranging for a visit is to call the schools coordinator of special education and introduce yourself and the purposes of the visitation. When you arrive at the school, be sure to have with you your time sheet and letter of introduction included with this assignment. An entire daylong visitation is preferred. If this is not an option,

you may visit the same site on two or more days. Visits to multiple sites also have distinct advantages, as you can see and compare how different campuses approach the same issues.

If you wish to visit a high school with a partner, please do so, as long as it meets the approval of the special education personnel who are hosting your visit. Crowds tend to draw attention away from instruction, so group size is limited to two people. You are a guest, so at all times behave in your most professional and courteous manner. Reserve any verbal critiques for this assignment's reflections.

What will you look for and what will you ask? The following nine questions directly relate to changes that IDEIA 2004 created in the roles of educators, students, and teachers. You are to ask questions, observe, and otherwise "fact find" (i.e., use web resources) in order to obtain responses to these questions that are *comprehensive and complete*. Keep your eyes open, as well. What you see may or may not "match" what you are told.

Your write up of the high school experiences has *three* components. The *first* component is comprised of the nine responses, with each response being approximately ½ to 1 page in length.

The *second* component is your 1- to 2-page analysis of the high school in terms of:

- STRENGTHS
- CONCERNS
- QUESTIONS YOU STILL HAVE
- RECOMMENDATIONS FOR IMPROVEMENT

The *third* component is the time sheet with signatures from the hosts for each day and time period of the visitation(s). You cannot get credit for this assignment without this!

This is your professional development experience, so enjoy it and set it up in a way that meets your needs!

College of Education
 San Marcos, CA 92096-0001
 760-750-4300
 www.csusm.edu/coe

**HIGH SCHOOL EXPERIENCE
 FIELDWORK TIME SHEET**

Since you will receive a credential as a K-12 special education professional, a critical part of your special education clinical experience involves spending a significant amount of time with learners across the grades K-12. In this experience, you are to eight (8) hours of observation and participation in one or more high school settings. A letter of introduction follows. Take this with you to the school or schools you visit. Phone the coordinator of special education services for the building (which may be the principal, assistant principal, a special education department chair, or a school-based coordinator) to make specific arrangements for the visitations. This may be the principal, assistant principal, a special education department chair, or a school-based coordinator. It is a “best practice” to meet your host teacher(s) face-to-face in advance to arrange a schedule. This, of course, may not be possible, due to time constraints. Be sure to have the host teacher(s) sign this time sheet for each time block that you are involved in school activities.

Turn in this time sheet along with your written responses for this assignment to your EDMX 633 instructor. You cannot get credit for this assignment without this timesheet being signed by host teachers, so be sure to bring it with you whenever you visit your high school site(s).

Dear Principal and Special Education Staff,

An important special education field experience for all Cal State San Marcos Mild/Moderate and Moderate/Severe Education Specialist credential candidates is to spend time in a variety of special education settings. Since special education service delivery at the high school level can be significantly different from service delivery in elementary settings, it is critical that credential candidates have a chance to a) talk with and shadow high school special educators, b) observe in general education classrooms in which students with disabilities are supported, c) observe and interact with students with a wide range of disabilities, and d) learn about the policies and procedures including transition planning.

It would be greatly appreciated if one or more of our credential candidates could spend eight hours under the guidance and management of one or more of your special education faculty engaged in the activities described above. Candidates could spend an entire day on campus (during, before, and/or after school hours); or observations could be spread across two or more days. This is up to the discretion of the credential candidates' hosts.

The credential program faculty and staff hope that this is an experience that your faculty and staff find interesting and valuable. As program coordinator, I extend the university's thanks for your continued support of the professional development of educators in the San Diego area and the CSU San Marcos credential programs, in particular. If you have any questions or concern, please e-mail me at jthousan@csusm.edu.

Respectfully,

Jacqueline Thousand

Dr. Jacqueline Thousand, Coordinator
Special Education Credential and Graduate Programs

IDEIA High School Questions

- 1) What are characteristics of an “exemplary” high school special educator? What are the most fulfilling aspects of working as a high school special educator? What are the greatest challenges in working as a high school special educator?

For the following questions, also ask “How would you improve this practice?”

- 2) In what ways do special educators encourage and support active *student participation* on the IEP team? To what extent are the questions from the MAPs process used to gather data for the IEP? To what extent do students direct and lead their own IEP meetings? How are students taught and coached to participate in and direct their own IEP meetings?
- 3) In what ways do special educators encourage and support *parent* participation on the IEP team and in the IEP process?
- 4) a) What arrangements are made so *classroom teachers* actively **participate** as members of the *IEP* team?
b) In what ways do you ensure regular *communication* with **classroom teachers** to coordinate curriculum and instruction?
- 5) In what ways are students involved in the development and implementation of their own *ITP* by age 16? What are examples of *transition* activities and goals?
- 6) In what ways are students informed of and educated about their *age of majority rights* by age 17? Describe the process in as much detail as possible.
- 7) At www.cde.ca.gov/ta/tg/hs/accomod.asp, please locate, download, print, and carefully read both *Matrix 1: Matrix of Test Variations, Accommodations, and Modifications for Administration of California Statewide Assessments* (October 2009) and *Q&A About Test Variations* to learn of a) the approved accommodations and modifications that can be provided for students with disabilities on the CAHSEE and b) how a student can receive a diploma with approved variations. With this in hand, ask your hosts: a) “What accommodations or modifications are commonly used at this high school?” and b) “How do you go about determining if an accommodation or modification is included in a student’s IEP?”
- 8) Go to www.cde.ca.gov/ta/tg/hs/cahseefaexemp.asp and see that *EC* Section 60852.3 provides an exemption from meeting the CAHSEE requirement as a condition of receiving a diploma of graduation for eligible students with disabilities who have an individualized education program (IEP) or a Section 504 plan. The IEP or 504 plans must state that the student is scheduled to receive a high school diploma and has satisfied or will satisfy all state and local requirements for high school graduation, on or after July 1, 2009. With this in hand, ask your hosts: a) “How is this provision being implemented for this year’s students and past graduates?” and b)

“What are any challenges or successes you are experiencing for students because of this CAHSEE exemption for diploma attainment?”

- 9) How do you determine when the alternate assessment – the California Alternate Performance Assessment (CAPA) - will be used with students with severe disabilities who are not included in CST testing? Before going to your high school site, visit the CAPA website: <http://www.cde.ca.gov/ta/tg/sr/capa.asp> and read the various documents at the site that describe who is eligible for the CAPA and so forth. When you visit your high school site, find someone who works with students with severe disabilities who can answer the following questions: a) Who is eligible for the CAPA alternate assessment? What are the assessment’s strengths? What are any limitations? b) “What OTHER alternative assessment approaches are used to provide meaningful (i.e., authentic, formative) information about student progress? Note: These questions MUST be answered with depth. If you cannot find someone who works with students with severe disabilities who can fully answer these questions, research the answers by carefully reading the information provide by the links at the California Department of Education CAPA website identified above.
