California State University San Marcos College of Education

Course Syllabus
Health Education for Teachers
EDUC 571 - 2 units CRN# 42302
Fall 2003

Instructor: Diane M. Solic RN, MSN

E-mail: DSolic@CSUSM.edu

Mission of the College of Education at CSUSM.

The mission of the College of Education Community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research, and on-going service. Our practices demonstrate a commitment to student centered education, diversity, collaboration, professionalism and shared governance. (Adopted by the COE Governance Community, Oct. 1997)

Authorization to Teach English Learners.

This credential program has been specifically designed to prepare teachers for the diversity of languages often encountered in the California public school classrooms. The authorization to teach English learners is met throughout the infusion of content and experiences within the credential program, as well as additional coursework. Students successfully completing this program receive a credential with authorization to teach English learners. (Approved by CCTC in SB2042 Program Standards, August 02)

Students with Disabilities Requiring Reasonable Accommodations.

Students are approved for services thorough the Disabled Student Services (DDS). This office is located in Craven Hall 5205, and can be contacted by phone at (760) 750-4905 or TTY (760) 750-4909. Students authorized by DSS to receive reasonable accommodations should meet with their instructor during office hours, or, in order to ensure confidentiality, in a more private setting.

Class Location: UNIV 441

Class Dates and Times: Mondays beginning September 8th, 2003

6:00 pm-9: 50 pm through Dec 20th, 03

Course Description:

This course is designed to raise teacher awareness and examine the current health issues confronting today's educators. The course will introduce educators to resource links within the community as well as within the public school system. Students will reflect on the ways that this information connects to their practice as it applies to their own classrooms and schools. Students are encouraged to utilize and incorporate computer technology. There is also an emphasis on classroom presentations. General theories and organization for teaching health education are discussed. Topics will include: common childhood illnesses, first aid, CPR, violence, alcohol, tobacco and other drugs, chemical dependency, nutrition, fitness, HIV/AIDS, STDs, conflict resolution, mental health and maintaining a healthy and safe school environment. Guest speakers from the community will provide valuable information on current health concerns in today's school environment. It provides an overview of issues in Health Education as described in the Health Education Framework for

California and is designed to satisfy the California Commission on Teacher Credentialing (CCTC) requirement for health education.

Required Materials:

Text:

Telljohann et al. (2001) Health Education: elementary and middle school applications, (3rd ed.) Boston: McGraw Hill.

Recommended Materials:

California State Department of Education, Health Framework for Public Schools, Kindergarten through Grade Twelve, Sacramento, 1994.(on reserve in CSUSM library? copies? day checkout)

Anspaugh, D. J. & Ezell, G. (1998). Teaching Today's Health, (5thed.). Boston, Ma: Allyn and Bacon

Weinstein, Estelle and Rosen, Efram. <u>Teaching Children about</u> <u>Health</u>, Morton.(2nd Ed.). 2002

<u>Dietary Guidelines for Americans</u>. United States Department of Agriculture. United States Department of Health and Human Services. (5th. Ed.) 2000. Home and garden bulletin No.232

The instructor will provide additional resources to complete assignments.

There will be an additional fee of \$20(payable in cash or check on day of class) to complete the course requirement for American Heart saver CPR. Those students already completing this course must show instructor a valid CPR card that will not expire before September 2004.

The American Heart saver CPR course and testing return demonstration will be scheduled during class TBA

Course objectives:

The goal of the course is to enhance the student's ability to recognize child and teenage health concerns and become capable of implementing Comprehensive School Health instruction in the public schools.

Upon completion of this course the student will:

- Increase knowledge, skills, and access to resource links necessary to address the health concerns of their own students.
- Raise awareness and improve understanding and skills necessary to positively impact student well being.
- Discuss current health issues, share concerns, and participate in collaborative problem solving.
- Identify major causes of death and illness in school-age children
- Discuss how culture, heritage, race, gender, and heredity influence health behaviors and impact learning in the classroom
- Demonstrate instructional strategies that foster wellness.
- Describe the opportunities for correlating/integrating health instruction with other subjects
- Identify the role of the official and voluntary health agencies in promoting school health programs.
- Increase awareness of opportunities and ideas for implementing the California Health framework
- Identify Teacher health concerns and discuss strategies to promote healthy Teachers
- Assemble an inclusive list of links to local health resources,
 Currently useful to educators, youth and families
 - Specific course objectives will be provided for each content area.

Course Outline:

- 1. Introduction: California Schools Health Framework
- 2. School Health Law, Acts, Legislation
- 3. Healthy/Safe School Environment
- 4. Nutrition/Eating disorders/ Childhood obesity
- 5. Physical fitness
- 6. Emotional/Mental health
- 7. Chemical dependency
- 8. Common childhood illnesses
- 9. STD, HIV/AIDS
- 10. CPR/Basic first aid

Student Responsibilities:

- Attend every class promptly according to scheduled times and participate in all class activities.
- All assignments should meet the requirements of CSUSM student handbook.
- Students will keep a copy of all assignments.
- Late work will be accepted with prior approval.
- Contact instructor in a timely manner if an emergency occurs and unable to attend class or unable to complete assignment on assigned date.
- Please refer to the student handbook regarding childcare issues.

Academic dishonesty:

If you employ dishonest tactics, including plagiarizing material, you will be subject to action. Refer to CSUSM University Catalog Pg. 317 for more information.

Evaluation:

This course is designed to encourage active participation by each student. Assignments are accepted by e-mail if student is unable to attend class. The instructor adheres to the official University drop policy. The final grade is based on 100 points. The distribution of the 100 points is as follows:

Attendance, Preparation and Participation	10 pts
Health Identification	5 pt <i>s</i>
School Health Legislative	15 pts
School Health Lesson Plan	25 pts
Interview	15 pts
Book essay (Group assignment)	20 pts
CPR certification	10 pts

Grading scale

Refer to the University Catalog/Student handbook.

A passing grade is minimum C+

Attendance and participation (10pts)

This course is designed to be participatory in nature, therefore attendance and participation are important. Absences and late arrival will affect the final grade. Participants are expected to be punctual and prepared for each class. Preparation for class includes reading the corresponding chapter in the assigned text related to the topic of class discussion.

Assigned readings

Journal articles, handouts, news materials will be assigned for many of the discussion topics. The assigned readings should be read before class sessions in order to be prepared for activities and discussions

Assignment #1 Health Identification (5pts) Due 1st class
Using a 5x7 index card paste a current photo of yourself in upper
right hand corner, include your first and last names on the left
upper corner. Type or print your address, e-mail address,
phone contact, school district, grade level in which you work, if
applicable. Provide information about your personal educational
background. On the reverse side include at least 3 expectations
or objectives you have for EDUC 571. Provide your personal
definition of "Health".

Evaluation/Assignment of Points

Presentation of information 2 Completeness 3

Assignment #2 School Health Legislative issue (15pts) Due TBA

Utilize internet research skills to find a current (within past 12 months) school health issue that is before the state legislature. Write a minimum of 2 typed pages (refer to CSUSM guidelines for typed written assignments) defining the program to be proposed. Include your personal opinions using supportive data from professionally peered journals and or newspaper articles. Address the implications of the proposed program for a credentialed teacher in California

Evaluation/Assignment of Points	
Summarize the proposal	3
Personal opinion statement	6
Implications of the program	6

<u>Assignment</u> #3 School Health Lesson Plan/Presentation (25pts) Due TBA

Create an informational lesson plan and interactive learning activity for your student population pertaining to one of the six CDC priority Health Education Content areas.

Identify the population of student (district, culture socio-economic, etc.).

Identify the location of this plan within the curriculum. Include the objectives, the teaching strategies and evaluation criteria. Also include materials needed by the teacher. (interactive computer technology, posters, handouts, audio-visual) Chapters 3-6 in Telljohan, Health Education, elementary and middle -school applications will be a resource for this assignment.

Evaluation/Assignment of Points Conceptual Statement 2pt Objectives 2pt Creative teaching plan 5pt Evaluation 2pt References 2pt Daily lesson plan 6pt Strengths and weaknesses of the lesson 2pts Presentation 4pts

<u>Assignment</u> # 4 Interview /presentation (15pts)

Due TBA

Conduct an interview with a school nurse, teacher, or administrator exploring and identifying student health problems. Include health programs in their school or district that have been developed to identify and manage the health problems. Type a 2 page report on your findings describing how the interviewee identifies, promotes, advocates health. Include materials or data to support your report. Be sure to include your personal attitudes on your findings and reaction to this experience. Include the date

and time of the interview and the school district. The name of the person interviewed may be anonymous.

Evaluation/Assignment of Points

Identify the interviewee/years of exp.	2pts
Concepts discussed	2pts
Programs utilized	3pts
Reaction to experience	4pts
Presentation	4pts

<u>Assignment</u> #5 Book Essay and Class Presentation (20pts) Due TBA (Group assignment)

Students will work in groups of 3-4. Each group will choose a different book that identifies health problems of school-aged children. Write a 4-5 page essay which defines 2-3 health topics/concerns from the book. Include how K-12 teachers could utilize the information to develop health lesson plans and current research on the health topics (reference 6-8 sources). The group will present the identified health problems. Creativity in presentation is highly recommended.

Some suggestions are:

- Pipher, Reviving Ophelia, saving the selves of Adolescent girls.
- Thompson, <u>Best Friends</u>, <u>Worst Enemies</u>. <u>Understanding the</u> Social lives of Children.
- Sheras, <u>Your Child: Bully or Victim? Understanding and Ending the Schoolyard Tyranny.</u>
- Simmons, Odd Girl Out.
- Kindlon, <u>Raising Cain</u>.
- Pelzer, A Child called It

Evaluation/Assignment of Points

Identifying 3 health issues	3pts
Defining 3 health issues	3pts
Application of health issue	5pts
Development and creativity of health lesson plan	5pts
Presentation format	4pts

Assignment #6 CPR certification (10pts)

A pre-test will be provided for you 2 weeks prior to scheduled class. It is highly recommended for each student to complete the pre-test prior to class. Read the AHA (American Heart Association) Heart Saver CPR book in its entirety before class instructor demonstration. Each student will perform successful demonstration of 1-2 person infant, child, and adult CPR, and foreign-body airway obstruction. AHA cards will be issued upon successful completion of multiple -choice examination (no more than 4 incorrect responses-per AHA guidelines)
