### **Contact Information for Technical Support Assistance**

Student Support for Technology: <http://www.csusm.edu/sth/support/index.html>

### **Use of Technology**

Candidates (Course participants) are expected to demonstrate competency in the use of various forms of technology (i.e. word processing, electronic mail, Moodle, use of the Internet, and/or multimedia presentations). Specific requirements for course assignments with regard to technology are at the discretion of the instructor. Keep a digital copy of all assignments for use in your teaching portfolio. All assignments will be submitted online, and some will be submitted in hard copy as well. Details will be given in class.

### **Electronic Communication Protocol**

Electronic correspondence is a part of your professional interactions. If you need to contact the instructor, e-mail is often the easiest way to do so. It is my intention to respond to all received e-mails in a timely manner. Please be reminded that e-mail and on-line discussions are a very specific form of communication, with their own nuances and etiquette. For instance, electronic messages sent in all upper case (or lower case) letters, major typos, or slang, often communicate more than the sender originally intended. With that said, please be mindful of all e-mail and on-line discussion messages you send to your colleagues, to faculty members in the School of Education, or to persons within the greater educational community. All electronic messages should be crafted with professionalism and care.

Things to consider:

- Would I say in person what this electronic message specifically says?
- How could this message be misconstrued?
- Does this message represent my highest self?
- Am I sending this electronic message to avoid a face-to-face conversation?

In addition, if there is ever a concern with an electronic message sent to you, please talk with the author in person in order to correct any confusion.

The following is a detailed explanation of major assignments in this online course:

Assignment #3: Interview of a Teacher

In this assignment, you will interview a teacher and write a 3–4 page summary of what you learned from him or her. Your purpose is to render a sketch so that your reader may be able to envision the teacher as a person with a distinct philosophy and experience.

Gathering information:

Interview a current or retired teacher who has had at least 3 years of full–time experience in elementary, middle, or secondary school classrooms. Suggested questions are:

Why did the teacher choose to enter teaching? How attractive was the profession to prospective teachers at that time? What were the other career paths available; were any others seriously considered? Does the teacher have any regrets about becoming a teacher?

What professional education did the teacher have? How helpful was it in learning to teach? At what point did the teacher feel comfortable as a teacher?

What were/are the teacher's goals for the education of students? Have these goals changed over the years? What career moves (school buildings, grade level, special students, subject matter, etc.) has the teacher made? To what extent were those moves voluntary? For current teachers, are further moves desired? If so, what are they, and why?

What have been the major joys and frustrations of teaching? What would help increase the joys and minimize the frustrations? On what issues does the teacher feel strongly about making changes in the way that schooling occurs now?

How did/does the teacher learn about his/her students' lives and needs? How similar are the backgrounds of the teacher and his/her students? What have been the teacher's experiences with "culture shock" in working with students from different backgrounds?

What are some favorite memories from the teacher's classroom? Does the teacher tend to remember individual students or activities, or are the memories more general?

What does the teacher think of current "hot issues" in education such as the California High School Exit Exam and the No Child Left Behind Act? How does the teacher take action to address new reforms that impact his/her classroom?

What is the teacher's metaphor for "teaching" or "teacher"? What are the main features of the teacher's approach toward teaching? What has the teacher learned from being a teacher?

Analysis:

After collecting your information, think about what you have learned about this teacher. Focus on a few themes that best characterize what you have heard. Do not try to be all-inclusive. Protect your teacher's confidentiality by using a pseudonym and masking identifying details.

In your analysis, incorporate what you have been learning about becoming and being a teacher. How does your teacher fit within the material addressed in your readings and in class? What issues are raised through your interview? What are the implications of your interview as you think about becoming a teacher? Be sure you include at least one reference to the readings/discussions we have in class.

Criteria for evaluation:

Exemplary papers are characterized by:

- Completeness of description of the teacher's experiences and views
- Explanation of how the teacher interview relates to your thinking about teaching
- Integration of coursework (readings + discussions) into the analysis
- Correct grammar, syntax, and spelling

Assignment #4: Inclusion (The outsider)

Many students with special needs come to view themselves as outsiders because they are labeled as different from the typical student. But most of us experienced some sense of being an outsider during our K-12 years. After reading chapters 1-3 in *Creating an Inclusive School* and at least two of the *Voices of Inclusion*, write a reflective essay (2 to 3 pages, double spaced) wherein you comment on your own (or a friend's) school experience that caused you to feel like an outsider. Reasons could include differences due to gender, religion, looks, beliefs/interests, family situation, academic ability, etc. Make at least 1 specific connection to the VT text. Consider the following questions:

- What personal characteristics fostered your or your friend's feeling of being different?
- How did you react and cope with the situation?
- Were you bullied or harassed in any way? Did the adults help you in this regard?
- Did you share your experience with any teachers? Did any teachers assist you?

What could school staff, parents or friends have done to help?  
In what ways did this experience change you? What did you “learn” from this experience?  
How might this experience make you a more sensitive teacher?

#### Assignment # 7: Philosophy of education paper

Write a 4-5-page paper (double-spaced) that explains your personal philosophy of schooling, learning and teaching. Follow the template below, and self-assess before you turn in the paper.

##### Paper Introduction

Name your philosophy (or combination of philosophies) as described by Grant & Gillette Ch 8. Explain why you are attracted to this philosophical stance. Is it due to your own schooling and/or background, what you’ve seen in schools since your own school days, the influence of particular persons, texts, other experiences with children/youth, etc.?  
Describe the level of schooling and subject field(s) you hope to teach.

##### Nature of schooling

Describe what you believe is the purpose of schooling in a democracy.  
How will you as a teacher help achieve these purposes?  
Give 1-2 examples of how this will look in your classroom/career.

##### Nature of the learner

Describe what you believe is the nature of the learner.  
What are your thoughts about the students you will teach? What do they need from a teacher?  
Give 1-2 examples of how this will look in your classroom.

##### Nature of the teaching/learning process

Describe what you believe is the nature of the teaching/learning process?.  
What do you believe counts as knowledge and how should it be presented?  
How will you as a teacher use subject matter and other experiences to guide students toward meaningful learning activities?  
Give 1-2 examples of how this will look in your classroom.

##### Teacher dispositions and actions

Describe what behavior (disposition/attitude & actions) you will exhibit in order to carry out your philosophical position.  
Give 1-2 examples of how this will look in your career.

##### **Conclusion**

Recap your philosophy.  
What are your outstanding questions/concerns/thoughts about becoming a teacher?

##### **Final Exam Statement**

There is no final exam for this course. Be sure to keep on schedule.

##### **Grading Standards**

Grades will be determined by the total number of points earned out of 100 points possible):

**A** = 93-100 , **A-** = 90-92, **B+** = 87-89, **B** = 83–86, **B-** = 80-82, **C+** = 77-79, **C** = 73-71, **C-** = 70-72, **D** = 60-69 ,
