Mission Statement of the College of Education, CSUSM

The mission of the College of Education Community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research, and ongoing service. Our practices demonstrate a commitment to student centered education, diversity, collaboration, professionalism, and shared governance.

Senate Bill (SB) 2042

This program has been specifically designed to prepare teachers for the diversity of languages often encountered in California public school classrooms. The authorization to teach English Learners is addressed by SB 2042. The competencies needed to teach these students are met through the infusion of content and experiences within the Multiple Subject Program, as well as additional coursework.

Course Description

This course requires participation in public schools and other education-related contexts and is designed:

- to extend preservice candidates' understandings about numerous philosophies of teaching and learning;
- to inform preservice candidates about key concepts and procedures as they relate to special education;
- to encourage further infusion of technology into curriculums.

Course Objectives

The purposes of this course are threefold:

- to expand preservice candidates knowledge about general learning theories and experiences with a range of pedagogical practices;
- to enhance preservice candidates' awareness of the multiple perspectives and learning styles that exist in diverse classrooms and other education-related settings;
- to provide a safe environment for preservice candidates' discussion of, and experimentation with, a variety of techniques and methods of instruction.

Required Text

- Marion, Valadez, Woo. (2002). *DEEP dialogue about teaching and learning EDMS 511/512*. Custom reader: Allyn Bacon.
- ISTE NETS resource book.
- Choate, J. (2004/2000). *Successful inclusive teaching: Proven ways to detect and correct special needs*. Needham Heights, MA: Allyn and Bacon.
- Villa, R., & Thousand, J. (2002/1995). *Creating an inclusive school*. Alexandria, VA: ASCD.

Accommodation for Disabilities

Students requiring reasonable accommodations need to contact Disabled Student Services in order to make the necessary arrangements. This organization is located in Craven Hall, room 5025a, and can be reached by telephone at (760) 750-4905 or (760) 750-4909 (TDD users).

Grading Policy

All students will come prepared to class; readings and homework assignments are listed on the dates on which they are due. Final grades for the course will be calculated according to the following total scores:

94-100%=A	77-79% =C+	60-63% =D-
90-93% =A-	74-76% =C	Below 60% =F
87-89% =B+	70-73% =C-	
84-86% =B	67-69% =D+	
80-83% =B-	64-66% =D	

All required work is expected to be on time. One grade level will be deducted for each class meeting for which it is late (e.g., an “A” assignment that is submitted one class session late will be marked down to an A-). Unless prior instructor approval is secured, assignments will not be accepted three class sessions after which they are due. Life and death situations will be handled on a case-by-case basis, as determined by the instructor.

It is expected that students will proofread and edit their assignments prior to submission. Students will ensure that the text is error-free (grammar, spelling), and ideas are logically and concisely presented. Refer to American Psychological Association (APA) manual, 5th edition, for guidance. Neglecting to do the above will impact the instructor’s ability to read and understand the text; the assignment’s grade will be negatively affected as a result of this oversight.

Grading will also include a component of “professional demeanor.” Students will conduct themselves in ways that are generally expected of those who are entering the education profession. This includes but is not limited to:

- On-time arrival to all class sessions;
- Advance preparation of readings and timely submission of assignments;
- Respectful participation in all settings (e.g., whole group, small group, in/outside of class);
- Carefully considered, culturally aware approaches to solution-finding.

Plagiarism

All work submitted for this course should reflect students’ efforts. When relying on supporting documents authored by others, it is necessary to cite them clearly and completely. Failure to do so may result in failure of the course.

College of Education attendance policy

Due to the interactive nature of courses in the College, and the value placed on the contributions of every student, students are expected to prepare for, attend, and participate in all classes. For extenuating circumstances contact the instructors **before** class is missed, and make arrangements to make up what was missed. At minimum, a student must attend more than 80% of class time, or s/he may not receive a passing grade for the course. If a student misses two class sessions or is late (or leaves early) for more than three sessions, the highest possible grade earned will be a “C+”. **Notification of absences does not allow students to assume they are automatically excused.**
