Mission of the College of Education at Cal State San Marcos: The mission of the College of Education Community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research, and on-going service. Our practices demonstrate a commitment to student-centered education, diversity, collaboration, professionalism and shared governance.

(adopted by COE Governance Community, October 1997)

Authorization to Teach English Learners: The Cal State San Marcos credential programs have been specifically designed to prepare teachers for the diversity of languages often encountered in California public school classrooms. The authorization to teach English learners is met through the infusion of content and experiences within the credential program, as well as additional coursework. Students successfully completing this program receive a credential with authorization to teach English learners.

(approved by CCTC in SB 2042 Program Standards, August 2002)

Special Education Inclusion: Consistent with the intent to offer a seamless teaching credential in the College of Education, this course will introduce the collaborative infusion of special education competencies that reflect inclusive educational practices.

Students with Disabilities Requiring Reasonable Accommodations: Students are approved for services through the Disabled Student Services Office (DSS). This office is located in Craven Hall 5205, and can be contacted by phone at (760) 750-4905, or TTY (760) 750-4909. Students authorized by DSS to receive reasonable accommodations should meet with their instructor during office hours or, in order to ensure confidentiality, in a more private setting.

College of Education Attendance Policy: Due to the dynamic and interactive nature of courses in the College of Education, all students are expected to attend all classes and participate actively. Absences and late arrivals/early departures will affect the final grade. COE attendance policy states, "At a minimum, students must attend 80% of class time, or s/he may not receive a passing grade for the course at the discretion of the instructor. Individual instructors may adopt more stringent attendance requirements." Should students have extenuating circumstances, please contact the instructor as soon as possible

Grading & Expectations Teacher education is a professional preparation program. It is expected that students will come to class prepared to discuss the readings, submit required assignments, and participate in class activities. Students are expected to adhere to academic honesty and integrity, standards of dependability, confidentiality and writing achievement. Because it is important for teachers to be able to effectively communicate their ideas to students, parents, colleagues, and administrators, writing that is original, clear and error-free is a priority for the College of Education. It is expected that work will be turned in on time. Please discuss individual issues with the instructor. Furthermore,

- You must maintain a B average (3.0 GPA), with all grades at a C+ or better, in your teacher education courses to receive a teaching credential from the State of California.
- If you miss two class sessions or are late (or leave early) for more than three sessions, you cannot receive a grade of A. If you miss three class sessions, you cannot receive a grade of B.
- Late assignments will be penalized by a 10% deduction in points for each weekday late. After one week, late assignments will be given a zero.

A	93-100 points	B-	80-82 points
A-	90-92 points	C+	78-79 points
B+	88-89 points	C	73-77 points
B	83-87 points	C-	70-72 points

Use of Technology: Students are expected to demonstrate competency in the use of various forms of technology (i.e. word processing, electronic mail, use of the Internet, and/or multimedia presentations). Specific requirements for course assignments with regard to technology are at the discretion of the instructor. Keep a digital copy of all assignments for use in your teaching portfolio. Details will be given in class.

Course Objectives

- Students will demonstrate writing effective lesson planning that incorporates SDAIE methodologies to accommodate diverse language and learning differences and that are linked to curriculum standards/frameworks and sequences of instruction.
- Students will interpret major learning theories through various applications in course assignments.
- Students will describe specific strategies for motivating students to perform toward academic excellence including psychological factors affecting first and second language development.
- Students will identify and analyze a variety of multicultural/multilingual learner centered instructional strategies including those that maximize comprehensible input, student interactions, and learning strategies for content and language development.
- Students will create assessment plans that are ability, age, language, and task appropriate.
- Students will develop strategies for becoming informed about learners including family, community, and learning styles.
- Students will demonstrate knowledge and application of principles of universal design and differentiated instruction.
