Mission Statement of the College of Education, CSUSM

The mission of the College of Education Community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research, and ongoing service. Our practices demonstrate a commitment to student centered education, diversity, collaboration, professionalism, and shared governance.

Senate Bill (SB) 2042

This program has been specifically designed to prepare teachers for the diversity of languages often encountered in California public school classrooms. The authorization to teach English Learners is addressed by SB 2042. The competencies needed to teach these students are met through the infusion of content and experiences within the Multiple Subject Program, as well as additional coursework.

Course Prerequisite

Admission to the Multiple Subject program and a passing grade in EDMS 511.

Course Description

This course requires participation in public schools and other education-related contexts, and is designed:

- to extend preservice candidates' understandings about numerous philosophies of teaching and learning;
- to inform preservice candidates about key concepts and procedures as they relate to special education;
- to encourage further infusion of technology into curriculums.

Course Objectives

The purposes of this course are threefold:

- to expand preservice candidates knowledge about general learning theories and experiences with a range of pedagogical practices;
- to enhance preservice candidates' awareness of the multiple perspectives and learning styles that exist in diverse classrooms and other education-related settings;
- to provide a safe environment for preservice candidates' discussion of, and experimentation with, a variety of techniques and methods of instruction.

Students with Disabilities Requiring Reasonable Accommodations

Students with disabilities who require reasonable accommodations must be approved for services by providing appropriate and recent documentation to the Office of Disabled Student Services (DSS). This office is located in Craven Hall 5205, and can be contacted by telephone at (760) 750-4905 or (760) 750-4909 (TDD users). Students authorized by DSS to receive reasonable accommodations should meet with their instructor during office hours or, in order to ensure confidentiality, in a more private setting.

CSUSM Academic Honesty Policy

“Students will be expected to adhere to standards of academic honesty and integrity, as outlined in the Student Academic Honesty Policy. All written work and oral presentations assignments must be original work. All ideas/materials that are borrowed from other courses must have appropriate references to original sources. Any quoted material should give credit to the source and be punctuated with quotation marks.

Students are responsible for honest completion of their work including examinations. There will be no tolerance for infractions. If you believe there has been an infraction by someone in the class, please bring it to the instructor's attention. The instructor reserves the right to discipline any student for academic dishonesty in accordance with the general rules and regulations of the university. Disciplinary action may include the lowering of grades and/or the assignment of a failing grade for an exam, assignment, or the class as a whole.”

Incidents of Academic Dishonesty will be reported to the Dean of Students. Sanctions at the University level may include suspension or expulsion from the University.

Plagiarism

As an educator, it is expected that each student will do his/her own work, and contribute equally to group projects and processes. Plagiarism or cheating is unacceptable under any circumstances. If you are in doubt about whether your work is paraphrased or plagiarized see the Plagiarism Prevention for Students website <http://library.csusm.edu/plagiarism/index/html>. If there are questions about academic honesty, please consult the University catalog.

Grading Policy

All students will come prepared to class; readings and homework assignments are listed on the dates on which they are due. Final grades for the course will be calculated according to the following total scores:

| | | |
|------------|------------|--------------|
| 94-100%=A | 77-79% =C+ | 60-63% =D- |
| 90-93% =A- | 74-76% =C | Below 60% =F |
| 87-89% =B+ | 70-73% =C- | |
| 84-86% =B | 67-69% =D+ | |
| 80-83% =B- | 64-66% =D | |

All required work is expected to be on time. One grade level will be deducted for each class meeting for which it is late (e.g., an “A” assignment that is submitted one class session late will be marked down to an A-). Unless prior instructor approval is secured, assignments will not be accepted three class sessions after which they are due. Life and death situations will be handled on a case-by-case basis, as determined by the instructor.

It is expected that students will proofread and edit their assignments prior to submission. Students will ensure that the text is error-free (grammar, spelling), and ideas are logically and concisely presented. Refer to American Psychological Association (APA) manual, 5th edition, for guidance. Neglecting to do the above will impact the instructor’s ability to read and understand the text; the assignment’s grade will be negatively affected as a result of this oversight.

Grading will also include a component of “professional demeanor.” Students will conduct themselves in ways that are generally expected of those who are entering the education profession. This includes but is not limited to:

- On-time arrival to all class sessions;
- Advance preparation of readings and timely submission of assignments;
- Respectful participation in all settings (e.g., whole group, small group, in/outside of class);
- Carefully considered, culturally aware approaches to solution-finding.

Writing

In keeping with the All-University Writing Requirement, all 3 unit courses must have a writing component of at least 2,500 words (approximately 10 pages) which can be administered in the following assignments:

| | | | |
|------|--|-------------|-------|
| 2/4 | Preliminary rubrics | (1 page) | (5%) |
| 9211 | <i>Philosophy of Education</i> statement | (2-3 pages) | (10%) |
| 2/18 | Write-up of “free” community resource | (1 page) | (5%) |
| 2/25 | TPE responses 10 and 14 | (2 pages) | (10%) |
| 3/3 | IEP reflection (in class) | (1 page) | (10%) |
| 3/17 | Feedback to three peers’ portfolios | (2-3 pages) | (15%) |
| 3/17 | Feedback to group teaching videos | (1 page) | (20%) |

College of Education attendance policy

Due to the interactive nature of courses in the College, and the value placed on the contributions of every student, students are expected to prepare for, attend, and participate in all classes. For extenuating circumstances contact the instructors **before** class is missed, and make arrangements to make up what was missed. At minimum, a student must attend more than 80% of class time, or s/he may not receive a passing grade for the course. If a student misses two class sessions (equal to whole day, e.g., 7:30-2:20 PM) or is late (or leaves early) for more than three sessions, the highest possible grade earned will be a “C+”. **Notification of absences does not automatically excuse them.**

Student Learning Outcomes

The course objectives, assignments, and assessments have been aligned with the CTC standards for the Multiple Subject Credential. This course is designed to help teachers seeking a teaching credential to develop the skills, knowledge, and attitudes necessary to assist schools and district in implementing effective programs for all students. The successful candidate will be able to merge theory and practice in order to realize a comprehensive and extensive educational program for all students. You will be required to formally address the following TPEs in this course:

TPE 6D - Special Education (double-check to make sure this was completed in EDMS 511)

- Articulates rationale for inclusive education for all students
- Understands and applies principles of universal design to differentiate instruction
- Develops modifications and adaptations in curriculum assessment and instruction for students with special needs
- Understands of roles and responsibilities as members of SST & IEP Teams
- Collaborates with others to plan, teach and assess students with special characteristics

TPE 14 - Educational Technology

- Maximizes use of instructional technology reflecting all six of the ISTE National Educational Technology Standards for Teachers. See www.iste.org
- Appropriately applies technology in instructional setting to maximize student achievement
- Adjusts the use of technology to resources available to optimize learning opportunities
