

Education EDSS 530: “Secondary Schooling in the 21st Century” (Three Credits)—2007 Spring Semester—Full-time cohort

Instructor: Joseph Keating, Ph.D. Professor of Science Education, Single Subject Program Co-Coordinator in the College of Education

Class Schedule: All classes meet Monday or Wednesday (depending on which cohort you are in) from 8:00 am to 2:15 PM.

Room: UH 439

Office Hours: UH 321 by appt.

Phone: 760-7504321

Email: jkeating@mailhost1.csusm.edu

California State University San Marcos  
COLLEGE OF EDUCATION

Mission Statement

The mission of the College of Education Community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research, and ongoing service. Our practices demonstrate a commitment to student-centered education, diversity, collaboration, professionalism, and shared governance.

*(Adopted by COE Governance Community October, 1997)*

Description:

The purpose of this course is to give the future high school teacher the opportunity to explore models and strategies that are on the cutting edge of the high school reform movement as we enter the 21<sup>st</sup> Century. Recent reform documents and the new textbook with its overarching theme called the “Circle of Courage” provide the framework for the course. This theme is explored using the basic tenet that good teachers and teaching result from the intersection of three key components strong content knowledge, pedagogical skills and appropriate teacher dispositions (attitudes). The intersection of these three components is explored through course topics that integrate theory, research and applications to school field experiences. Assignments connected to these are aimed at linking theory to practice. Consequently, one of the requirements imbedded in these assignments is the expectation that many of them will be completed through exploration at the school sites. As a result of being a active participant in this course and its themes you should expect an increased expertise in the following areas of leadership in school reform: knowledge of teacher attitudes/ dispositions, applying action research, applying community /service learning/parental involvement, integration of cooperative learning, applying problem solving, effective use of classroom management techniques and beginning processes of curriculum planning.

Required Texts:

***Teaching in Secondary Schools (2005).***

*Baldwin, Keating and Bachman.* Pearson/Prentice Hall. **(Note: should already be purchased for previous courses)**

**Rethinking High School—Best Practice in Teaching, Learning, and Leadership** (2001)

Daniels, Bizar and Zemelman. Heinemann.

**Observation Skills for Effective Teaching** (2003). Gary Borich, (*Merrill.*) **Note:** to be used in conjunction with EDSS 511 and **should already be purchased**

[www.taskstream.com](http://www.taskstream.com) (2005) Web page access for assessment/reflection of TPE. Subscription required each semester. Will be used by most courses in the program.

**Additional Readings: recommended but not required**

*Second To None: A Vision of the New California High School* (California Task Force) (1994).

*The Good High School--Portraits of Character and Culture* (*Harper*) Sarah Lawrence Lightfoot (1983).

*Classroom Instruction that Works..Research Based Strategies for Increasing Student Achievement* (2001) Marzano, Pickering and Polluck. American Association for Curriculum Development.

**Objectives:** upon completion of this course the candidate will be able to demonstrate knowledge, understanding, appreciation and practical skills for applying.....

1. Characteristics (dispositions/attitudes—see description under assignments) and practices (strategies) of the reformed 21st Century high school teacher;
2. Community connections such as relationships with parents, service learning, and school to career
3. Specific strategies related to inclusive education: problem solving/creative thinking, cooperative learning, and classroom management;
4. Research in teaching and learning: action research;
5. Observation/reflection as an integral part of practice;
6. Characteristics and practices of the 21st Century reformed high school.

**Summary of Assignments Completion expectations:**

- **Grade Sheet:** Specific details of each assignment are included below as well as in the text and will be given in class at the appropriate time: a grading sheet will be used to keep track of these
- **Graduate Level Professionalism:** Expectations are that assignments will be professionally done (i.e. typed when recommended and at the highest quality level representative of graduate work)
- **Referencing Sources:** Citations should always be used when utilizing information from another source
- **Punctuality and attendance** is essential in that many ideas presented cannot be replicated via alternatives such readings, student notes or videotape etc. Consequently any missed assignments and classes will be excused only for extenuating circumstances. Any assignments that could be made up from missed days due to extenuating circumstances (not all could since they are group and interactive) will only count a maximum of 1/2 the possible value since discussion/reflection of these assignments in class is an essential part of the assignment and process. Two missed classes or equivalent will automatically result in one letter grade lower and three missed classes with two letter grades lower. Late arrivals with also are penalized at the discretion of the instructor.

## **Teacher Performance Expectation (TPE) Competencies:**

This course is designed to help teachers seeking the Single Subject Credential to develop the skills, knowledge, and attitudes necessary to assist schools and district in implementing an effective programs for all students. The successful candidate must be able to demonstrate their understanding and ability to apply each of the TPE's that merge theory to practice in order to realize a comprehensive and extensive educational program to meet the needs of all students. Failure to meet a minimum competence in any of the TPE's by the completion of the program will prevent the acquisition of the Single Subject Credential. The following TPE's are addressed and evaluated directly or indirectly in this course:

Primary Emphasis (these will be assessed/reflected on as a culminating assignment in this course on Taskstream: see assignment descriptions for specifics)

TPE 8 Learning about students

TPE 11 Social Environment

## **How to write a TPE response:**

- **Responses to TPE's 8 and 11:** It is important to recognize that the TPEs are threaded throughout the credential program, as a whole, and are addressed multiple times in each course. Even though we are referencing and seeking to understand many TPEs in this course, you are specifically responsible for writing a response for TPE 8 and 11 in the Task Stream Electronic Portfolio.

Each assigned response will relate to course assignments, discussions, and/or readings that provide a deeper understanding of the specified TPE. As you write, the goal is to describe your learning as it relates to the TPE, to analyze artifacts (assignments) and explain how they are evidence of your learning, and to reflect on the significance of your learning (the "so what") and where you need to go next related to the TPE. A four-paragraph structure will help you develop your response:

- 1<sup>st</sup> paragraph: Introduction to your response that uses the words of the TPE. DO NOT restate the TPE; instead, introduce your reader to the focus of your response as it relates to the TPE. This is basically an extended thesis statement related to the TPE.
- 2<sup>nd</sup> paragraph: Explain how one attached artifact is evidence of your learning related to the TPE. The key here is "evidence." How does this artifact prove that you have learned something specific related to this TPE?
- 3<sup>rd</sup> paragraph: Explain how another attached artifact is evidence of your learning related to the TPE.
- 4<sup>th</sup> paragraph: Reflect upon and summarize the significance of your learning overall (connected to the TPE) and explain what you still need to learn related to this TPE. This addresses the "so what?" of your learning.

Please be succinct in your writing; more is NOT better. State your ideas clearly and keep them grounded in the evidence of your learning as represented by your artifacts.

When you submit each TPE response, you will receive feedback from the instructor that asks for revision or says that you are done. You will not get full credit for this assignment if you are asked to revise and you do not. Please continue to check your TaskStream portfolio until the instructor says you are done with each TPE response for the course. More details about using TaskStream will be given in class and can be found on WebCT.

### COE Attendance Policy

Due to the dynamic and interactive nature of courses in the College of Education, all students are expected to attend all classes and participate actively. At a minimum, students must attend more than 80% of class time, or s/he **may not receive a passing grade** for the course at the discretion of the instructor. Individual instructors may adopt more stringent attendance requirements. Should the student have extenuating circumstances, s/he should contact the instructor as soon as possible.

Students with Disabilities Requiring Reasonable Accommodations. Students are approved for services through the Disabled Student Services Office (DSS). This office is located in Craven hall 5205, and can be contacted by phone at (760) 750-4905, or TTY (760) 750-4909. Students authorized by DSS to receive reasonable accommodations should meet with their instructor during office hours or, for confidentiality, in a more private setting.

### Course Topic/Activity Schedule/Calendar and Related Assignments:

#### **Week #1 Class #1-2 (January 22/24) Topics/Activities:**

Orientation:

- 1) Graphic Organizer of the course
- 2) Introduction to Cooperative Learning through Communication Skills Games #1 (Verbal/Non-Verbal Communication: Language protocols);
- 3) Introduction to Inquiry/Problem Solving through Problem Solving Skills Game #1 (Gum Drop Towers: Generic Problem Solving Model);
- 4) Syllabus/text/assignments/grade sheet considerations
- 5) Teacher Dispositions (revisit)
- 6) Directorships (revisit)

#### **Assignments due for next class (January 29/31: Class #3-4):**

- 1) Assignment #9: Rethinking High Schools: Start Reading introduction, Ch 1 and Ch 13 and after it is assigned the chapter you will Jigsaw on “Rethinking High Schools (Best Practices High School = BPHS)” (two Reading Logs i.e. one each for introductory chapters and one for the jigsawed chapter). Meet with assigned expert group prior to class to prepare 5-7 minute overview and one page handout/summary of your assigned chapter.
- 2) Read syllabus: questions, clarifications
- 3) Read: **Teaching with Heart and Soul** by Parker Palmer and **A Navajo Curriculum in National Context** by James McNeley (will be sent as a scanned document via email) Do a one page Reading Log for each responding to: What implications do these ideas have for my own teaching attributes from an affective perspective?

#### **Week #2 (January 29/31: Class #3-4): Topics/ Activities/Review**

- 1) Discussion of Secondary Reform documents from Chapter 1 TSS:” Second to None”/”Breaking Ranks” and “What really Matters” and “Circle of Courage”—Discussion/Video
- 2) Group presentation” Rethinking High Schools (BPHS)” Jigsaw Activity #9
- 3) Introduction to Borich Text and Assignment
- 4) Discussion of Palmer and McNeley articles on affective teaching
- 5) Closure/Questions Quickwrite/ Next time

**Assignments due next time (February 5/7):**

- 1) Read Borich Chapter One and Two: Do a Reflective Reading Log for each Chapter (part of Assignment #8)
- 2) Read in TSS: Chapter 6 Cooperative Learning (reading log)

**Week #3 (February 5/7: Class #5-6)**

- 1) Introduction to Classroom Observations: Discussion/Simulations of ideas from Ch 1-2 (Borich) Assignment #8
- 2) Introduction to the teacher as a researcher: “Group Ethnographic Study” (see assignment # 4): presentation/paper due: Week # 6
- 3) Cooperative Learning Communication Skills Game #2 Epstein’s Five Stage Rocket (cooperative learning social protocols) and discussion/questions from Chapter 6 in TSS (top ten strategies for effective implementation and increasing achievement through Cooperative Learning)
- 4) Planning time for Ethnographic Study group presentation
- 5) Closure/Questions/Quickwrite

**Assignments due next time (February 12/14):**

- 1) In TSS Read Ch 4 pp.86-99 (Introduction to divergent questioning techniques and the Inquiry Problem Solving Model) no reading log. Instead respond to this prompt: Outline a specific idea/activity/lesson/assessment that incorporates problem solving/critical thinking in your subject area
- 2) Plan school site visit for ethnographic study

**Week #4 (February 12/14 # 7-8)**

- 1) Inquiry / Problem Solving/ Model to Solve Problems Example #2 Superlinks
- 2) Integrating Problem Solving into a Discipline area: In subject matter groups discuss and prepare a lesson from this prompt: Write out a brief one page description of the logistics of an activity/lesson plan that involves using both strategies of problem solving (inquiry) and cooperative learning that you could apply within your own discipline. Each team will present their idea to class as an example. The idea should include an objective, activity and logistics, assessment.  
#11
- 3) Closure/Questions/Quickwrite
- 4) Off campus School site visit for Ethnography study (11:00 am-?)

**Assignments due next time (February 19/21):**

- 1) Read Borich Ch 3-4: (reflective reading log for each per #8)
- 2) Read Ch 10 in TSS on incorporating community resources (reading log)
- 3) Read Ch 3 pp 71-77 in TSS on Action Research (reading log)

**Week #5 (February 19/21 #9-10) Topics/Activities/Review**

- 1) Discussion/Questions on Borich reading Ch 3-4 and overview of Borich observational study assignment #8 (due \_Week #7)
- 2) Introduction to using community resources in classroom/Discussion of Ch 10 Community Resources and Ch 3 Action Research: Service Learning, School-to- Career/ Parental involvement and evaluation of this process (Action Research)

- 3) Service Learning Project Overview/ explanation Assignment #6 Due: Week # 8
- 4) Closure/Questions/Quickwrite

**Assignments due next time (February 26/28):**

- 1) Start gathering data in subject matter teams for Borich observational study (using one of these assigned five lenses: Lesson Clarity, Classroom Management, Task Orientation, Student Engagement and Student Success)
- 2) Complete final paper and prepare for 10 minute Ethnographic Study presentation
- 3) Plan off campus School site visit for Borich Observational Study

**Week #6 (February 26/28 #11-12): Topics/Activities/Review**

- 1) Ethnography presentation and written report (10 minutes max.)
- 2) Cooperative Learning Communication Skills Game #3 (Leader of the Pack):
- 3) Review of Overall Effective top 10 strategies for Cooperative Learning
- 4) Closure/Questions/Quickwrite
- 5) Off campus School site visit for Borich Observational study (11:30 am-?)

**Assignments due next time (March 5/7):**

- 1) Borich observational study oral and written presentations due (10 minutes)
- 2) Read in TSS Ch 9 Classroom Management (Reading log)

**Week #7 (March 5/7 #13-14) Topics/Activities/Review**

- 1) Borich Observational Group Study Presentation/ written report due (10 minutes)
- 2) Introduction to Classroom Management Discussion of Ch 9 Part 1:
  - a) Overview of models
  - b) Compassionate discipline model (Level 1-3)
- 3) Student teams are assigned in class to prepare and present simulations of common discipline problems per text.
- 4) Classroom Management: Part 2—Bullying and other severe discipline issues (Levels 4-5)
- 5) Closure/Questions/Quickwrite

**Assignments due next time (March 12/14):**

- 1) Group presentation and written report of Assignment #6 Service-learning/ action research project proposal (10 min. per site)
- 2) Final Exam (revisit original graphic organizer and connect to TPE #8/11/ bring to class: Graphic Organizer and TPE #8 and 11)

**Week #8 (March 12/14) Topics/Activities/Review**

- 1) Group presentation and written report of service-learning/ action research project proposal (10 min. per site)
- 2) Final grade sheet completion
- 2) Instructor evaluations
- 4) Course final exam on TPE #8 and #11 (preparation for completion on TaskStream due by March 28th)

## **Brief Synopsis of each assignment:**

### **#1 Teacher Dispositions (formative evaluating will be discussed in class):**

A variety of practitioner and university research suggests the importance of linking affective objectives (feelings, attitudes, values, and social behaviors) to all cognitive objectives (mental operations, content knowledge) in all subject areas (Roberts and Kellough, 2000). Krathwohl, Bloom and Masia (1964) developed a useful taxonomy for teachers to use in defining and implementing affective objectives. These student behaviors are hierarchical from least internalized to most internalized: 1) receiving; 2) responding; 3) valuing; 4) organizing; 5) internalizing and acting. There is a correlation between students' academic success and the degree to which teachers incorporate these affective objectives (Roberts and Kellough, 2000; Baldwin, Keating and Bachman, 2003).

In order for teachers to facilitate and integrate these affective expectations into their own teaching, it is essential that they demonstrate corresponding personal attributes (characteristics, qualities) in their own learning. In light of this, it is critical for pre-service teachers to be given an overall dispositional model (a range of these personal attributes) that can be used by them, as future teachers, and that illustrates the importance of and encourages the practice of these attributes. This dispositional model generally reflects the high expectations of quality teaching such as enthusiasm, positive attitudes, positive interactions and supportive interpersonal relationships within the teaching environment. In summary, there is a general consensus within the educational community that these attributes are considered highly desirable professional qualities in teachers (with an obvious range of individual manifestations) that will assist in promoting successful teaching and learning outcomes (Stone, 2002; McEwan, 2002; Dewey, 1910).

### **Scoring Criteria**

Each of these seven attributes will be scored on a 4-point rubric and then averaged (to be 10% of the course grade). Demonstrated improvement for an individual in any area will be used as a strong consideration in the scoring of these attributes. Peer input and intermediate conferences will assist in formative assessments.

4 = Exceeds **expectations**: Student has demonstrated an especially high level of functioning with respect to this attribute (no sub par examples)

3 = Meets **expectations**: Student has demonstrated an acceptable level of functioning with respect to this attribute (some qualities may be high while others are more limited; while there is room for continued growth, this student is generally solid; no concerns exist)

2 = **below expectations**: Student has demonstrated inconsistent levels of functioning with respect to this attribute; the student is on his/her way to meeting expectations, but needs time or a conscientious focus on this attribute in order to do so (numerous limitations or examples noted)

1 = well **below expectations**: Student has demonstrated a low level of functioning with respect to this attribute (serious overall limitations noted in this area)

### **Generally Accepted Attributes of Highly Effective Teachers** **(As seen in pre-service programs)**

(Roberts and Kellough, 2000; Stone, 2002; McEwan, 2002; Baldwin, Keating and Bachman, 2003; Johnson and Johnson, 1994; COE Mission Statement, 1997)

The following will be used as a guideline to assess the level of attainment (and progress) in demonstrating these attributes.

- 1) **General classroom attendance, promptness, and participation:** is on time, respects time boundaries (breaks, etc.), regularly attends class, and actively participates.
- 2) **Attention to classroom discussion protocols** (per Epstein's Five Stage Rocket): respects time limitations, recognizes and respects the perspectives of fellow classmates, gives wait time, listens actively, uses non-interruptive skills, mediates disagreements by working to understand others' perspectives and finding common ground, genuinely encourages all to participate.
- 3) **Social and cooperative skills (as illustrated in cooperative projects):** assumes responsibility of one's roles, is open to consensus and mediation, effectively communicates ideas, attends group meetings, is dependable, respects others' ideas, expects quality work from self and colleagues, manages time effectively, uses organizational skills and leadership skills, is assertive but not aggressive, uses reflection as a means of evaluation, motivates and offers positive reinforcement to others.
- 4) **Attention to assignments:** meets time deadlines, produces quality products, responds cooperatively to constructive criticism, uses rubrics or other stipulated criteria to shape an assignment, prioritizes tasks and performs/supervises several tasks at once.
- 5) **General classroom demeanor:** is professional, creative, kind, sensitive, respectful, has a sense of humor, is supportive of fellow classmates and instructors; recognizes others' perspectives as valid and works to include all "voices" in the classroom; is aware of and responsive to issues and behaviors that might marginalize colleagues in the classroom.
- 6) **Flexibility:** is responsive when reasonable adjustments to the syllabus, curriculum, schedule, and school site assignments become necessary (common to the educational arena); can work through frustrations by problem-solving with others and not letting emotional responses dominate or impair thinking; "bounces" back easily; can work calmly under stress.
- 7) **Openness to and enthusiasm for learning:** can engage with a variety of educational ideas with an open mind and a sense of exploration; demonstrates passion for and metacognition of learning across the curriculum and within discipline areas; takes advantage of learning opportunities and seeks out additional opportunities for learning.

**#2 Problem Solving (Competitive/Non-competitive Model):** the value of problem solving is demonstrated and discussed through two open ended problems completed in class: Gum Drop Towers and Superlinks. These will model the competitive-non-competitive model that can be effectively applied to a high school classroom. In addition, this will be linked to a later reading assignment (In TSS, Keating, Baldwin and Bachman on Inquiry Based learning), which will ask the student teams to design their own example of a problem solving assignment within discipline. Description details will be provided in class.

**#3 Cooperative Learning Simulation Games:** Three classroom simulation games will be demonstrated and completed in class that will assist in developing those skills and protocols essential to working effectively in a cooperative team both as a participant during this program and with one's own students. These are called: Epstein's Five Stage Rocket, Verbal –Non-Verbal Communication and Leader of the Pack. Description details will be provided in class.

**#4 School Ethnographic Study Presentation:** Students will select a school site and as a team design a plan to visit the site in order to collect data and information from a variety of sources that might include: interviews, observations, documents, surveys, video/still photography etc. Using this information they will present a cohesive ethnographic overview of that school site for other members of the class. This presentation (both written and oral) has the multiple purpose of: jigsawing information about areas schools and introducing the student to the process and value of ethnographic and (or) action research. Other assignments will build on this foundation of the teacher as researcher model including the Borich Observational Study and the Action Research curriculum design as part of the Service-learning project. Description details will be provided in class.

**#5 Reflective Reading Logs and (or) Prompts:** Students will reflect on a variety of reading assignments and respond with either a written reading log (description details provided in class) or as a response to a prompt associated with that reading (description details provided in class). Rubrics will be used to evaluate student responses to the reading logs and a variety of assessment techniques will be applied to the prompts---besides providing a way to evaluate your work this will model evaluative techniques that can be applied to your own students readings/writings.

**#6 Service Learning/Action Research Project oral presentation and written report:** In teams or as individuals, students will explore the feasibility of integrating community service-learning to a particular school site. A variety of resources such as Maryland Best Practices in Service-Learning will be used as a basis to understand how this teaching strategy is effectively implemented in high schools. This assignment also includes exploration and investigation of (any) existing school programs as well as availability of community resources (parents, businesses and individuals) that might assist in implementing or upgrading service-learning as part of the regular school curriculum. The final outcome of this assignment will be a group or individual oral presentation and written report that includes a curriculum plan for effectively implementing three critical aspects service learning (curriculum connections, career exploration and service to the community). It also includes an effective, objective mechanism that would evaluate it (action research proposal) that was introduced in Assignment #4 Ethnographic Study. Description details will be provided in class.

**#7 Attendance/Participation:** see Teacher dispositions and attendance expectations: note penalties for excessive absences or tardies.

**#8 Borich Observational Research Study Assignment:** This assignment builds on skills and knowledge in the area of teacher-research (action research) applied and integrated in the School Ethnographic Study (#4) and Service-learning/Action Research Project (#6). In this assignment the student will have the opportunity to practice a variety of observation/data collecting techniques as discussed in the Borich reading assignments. You will work in common subject areas to focus on one lens to gather, analyze and synthesize data gained from a minimum of three classroom observations and present their findings in both an oral and written format. Each the teams will present findings from five of the eight lenses discussed in Borich (in EDSS 531 the other three will be explored). Description details will be provided in class.

**#9 Jigsaw on text by Daniels et al: “Rethinking High Schools (Best Practices)”:** This assignment models the Jigsaw 2 model per Slavin (1995). Students will read introduction and final overview chapter plus the assigned one. They will meet with others that have read these (expert group) and make a short oral presentation to the whole class (main group) in order to “teach” and evaluate the understanding of the concepts found in the assigned chapter. The

purpose of this assignment is to: 1) model Jigsaw 1 and 2; 2) demonstrate/ model a method of making students responsible for learning and teaching concepts to fellow classmates; 3) a model to overview large amounts of information in a relatively short time frame.

**#10 Quickwrites:** An effective authentic evaluation method for the teacher and the student to determine what has and what has not been learned. At the conclusion of some classes students will be asked to write a brief overview of: 1) what they learned in class that day; 2) what questions they need answered; 3) general comments (mechanism to thank teacher or ask for assistance). The instructor can use the student responses to this Quickwrite as a basis to review the last class, answer common questions (in class) or specific questions to the individual student (on the paper).

**#11 Problem Solving/Creative Curriculum:** Students will have practice with two simulations of a problem solving model i.e. Gumdrop towers and Superlinks. Using this as a model they will design and share examples of lesson plans that incorporate elements of open ended problem solving (critical thinking, higher order thinking etc.) in their own subject areas and present them in class.

**#12 Reflections on TPE #8 and #11 in TaskStream (Final Culminating assessment)** Students will respond to the teacher performance expectations of Learning About students and the Social Environment by citing examples of experiences and reflections on those experiences that were provided in this course. Models and examples will be provided to guide the student in this culminating process (see description of expectations under TPE's earlier in syllabus).

**#13 Directorships: (optional extra credit)** Students will select classroom specific roles/responsibilities, assuming the leadership for the year in assisting all members of the cohort in some educational or social function. Specific details and available directorships will be discussed in class. This assignment has multiple purposes all readily transferable to the high school classroom setting that include teaching responsibility, leadership and social accountability. It is directly linked to the teacher dispositional assignment (# 1).

**#14 Final Summative Exam of the course:** Using an authentic assessment technique (Graphic Organizer) the students will complete a summative understanding of what they learned and can apply from this course. This response can be used in support of TPE's #8 and #11

### **Point Values of Assignments (see also grade sheet)**

- 1) Teacher Dispositional Skills Formative Assessment (Instructor, Student and Peer input) (5 pts.)
- 2) Problem Solving: (Gum Drop Towers and Superlinks) (10 pts.)
- 3) Cooperative Learning Simulation Games (three) (10 pts)
- 4) School Ethnographic Study Group Presentation (10 pts.)
- 5) Reflective Reading Logs and Prompts 2pts each (20 pts.)
- 6) Service Learning/Action Research Project oral presentation and written report (10 pts.)
- 7) Attendance/Participation (45 pts.)
- 8) Borich Observational Research Classroom Assignment (18 pts.)
- 9) Jigsaw on "Rethinking High Schools (Best Practices)" (5 pts.)
- 10) Quickwrites (5pts.)
- 11) Problem Solving Team Lesson Presentation (5pts)

- 12) TPE Responses for #8 and #11 in TaskStream (5 pts)
- 13) Directorship (extra credit 5 pts.)
- 14) Final Exam (10 pts)

Total = 158 pts. Possible

Grading Scale: students must maintain a B average in the credential program and obtain a grade of no lower than C+ in any individual course in order to receive credit for that course. Note attendance policy: excessive absences (non-extenuating circumstances) will result in the following grade reductions: (2 = one grade lower; 3= two grades lower; more than 3= non passage of course)

A = 90-100 (97-100 A+)

B = 80-89 (87-89 B+)

C = 70-79 (77-79 C+)

D = 60-69

F = < 60
