Mission Statement

The mission of the College of Education Community is to collaboratively transform public education by preparing thoughtful educators and advancing professional practices. We are committed to diversity, educational equity, and social justice, exemplified through reflective teaching, life-long learning, innovative research and on-going service. Our practices demonstrate a commitment to student-centered education, diversity, collaboration, professionalism, and shared governance. (Adopted by the COE Governance Community, October, 1997).

COURSE DESCRIPTION

Required of all credential candidates. This course explores cultural, racial, ethnic, and linguistic diversity as critical variables in achieving educational equity for ALL students. Major units include intensive theoretical and practical articulation of culture and cultural pluralism; educational issues of race, class, gender, first- and second-language acquisition, ethnicity, and exceptionality; social, structural, programmatic and curricular issues; understanding "at risk" kids, and effective teaching for diverse populations.

Course Objectives

Students completing EDUC 364 will be able to demonstrate:

- developing competencies in *TPE 15: Social Justice and Equity*;
- understanding of various concepts of culture and cultural contact, and their applicability to learning and teaching;
- understanding of cultural diversity in the United States and California;
- general familiarity with cultural responsive pedagogy;
- understanding of gay, lesbian, bisexual and transgender students, teachers and families.

Authorization to teach English Language Learners (ELLs)

The credential program at CSUSM has been specifically designed to prepare teachers for the diversity of languages often encountered in California public school classrooms. The authorization to teach ELL's is met through the infusion of content and experiences with the Multiple Subject Program, as well as additional coursework. Students successfully completing this program receive the Preliminary Multiple Subject Credential with authorization to teach ELL's (formerly called CLAD).

College of Education Attendance Policy

Due to the dynamic and interactive nature of courses in the College of Education, all students are expected to attend all classes and participate actively. At a minimum, students must attend more than 80% of class time, or s/he may not receive a passing grade for the course at the discretion of the instructor. Individual instructors may adopt more stringent attendance requirements. Should the student have extenuating circumstances, s/he should contact the instructor as soon as possible. (*Adopted by the COE Governance Community, December, 1997*).

Class Standard: 4 absences and you will be dropped from the class.

COMPETENCIES

Teacher Performance Expectation (TPE) Competencies

This course is designed to help teachers seeking the Multiple or Single Subject(s) Credential to develop the skills, knowledge, and attitudes necessary to assist schools and districts in implementing an effective program for all students. The successful candidate will be able to merge theory and practice in order to realize a comprehensive and extensive educational program for all students. The course objectives, assignments, and assessments have been aligned with the CCTC standards for the Multiple and Single Subject(s) Credential. You can incorporate artifacts from this class into your final comprehensive portfolio. The following TPE is addressed in this course:

TPE 15: Social Justice and Equity

Teacher candidates will be able to identify issues of social justice and equity in the classroom and can apply appropriate instructional strategies to ensure equal outcomes for diverse students. They will be familiar with ideas, definitions, and major theorists in the fields of multicultural education, social reconstruction, and democratic education. Pluralism and divergent perspectives on educating students will be the foundation of designing effective lessons and instructional practices for diverse students. Candidates will understand when and how to collaborate with others, especially curriculum

specialists, community leaders, and parents on preparing relevant and appropriate instructional activities, curricular units, and school structures that would provide equitable outcomes for students from different linguistic, cultural, and social economic backgrounds.

GENERAL CONSIDERATIONS

All rights reserved

I reserve the right to change, add to, or delete any and all material from the course.

Outcomes and Standards

The context for, and scope of this course is aligned with standards for the Cross-cultural Language and Academic Development (CLAD) endorsement, as articulated by the California Commission on Teacher Credentialing (CTC), and as approved by the faculty of the College of Education in development of the program approval documents. (Note: As of 2002, the CLAD competencies are collectively referred to as an *Authorization to Teach English Learners*.)

Further consideration has been given to the alignment of standards for multicultural education as articulated by the National Council for Accreditation of Teacher Education (NCATE), the Interstate New Teacher Assessment and Support Consortium (INTASC), and the National Board for Professional Teaching Standards (NBPTS). Emphasis is placed on learning outcomes (what you know and can demonstrate) rather than on inputs (putting in "seat time", meeting minimum criteria for assignments, checking off tasks and activities), and how these outcomes correspond to your potential to enhance student learning as a new teacher.

Academic Honesty

I expect that each student will do his/her own work, and contribute equally to group projects and processes. Plagiarism or cheating is unacceptable under any circumstance.

Appeals

Every student has the right to appeal a grade, or appeal for appeal for redress of grievances incurred in the context of the class. Disputes may be resolved informally with the professor, or through the formal grades appeal process. For the latter, consult with Dr. Peggy Kelly, Associate Dean of the College of Education.

Students with Disabilities Requiring Reasonable Accommodations

Every student has the right to equitable educational consideration and appropriate accommodation. Students having differing ability (mobility, sight, hearing, documented learning challenges, first language/English as a second language) are requested to contact the professor. Every effort will be made to accommodate the student's special needs.

Students are approved for services through the Disabled Student Services Office (DSS). The DSS Office is located in Craven Hall 5205, and can be contacted by phone at (760) 750-4905 or TTY (760) 750-4909.

Community Service Learning

Community Service Learning is an integral part of this class. Community Service Learning engages students in active learning experiences that enhance classroom instructional activities, while addressing social, economic, political, health, and environmental needs of people in the community. Students learn while doing and while reflecting on what they do.

Foster Children

A unique aspect of this course is a focus on the educational needs of foster children. In a unique collaboration between CSUSM's College of Education, Casey Family Programs and San Diego County, all students enrolled in this course are required to tutor foster children as part of the Service Learning requirement for the course.
