Expected Dispositions for the Education Profession

Assessing a candidate's dispositions within a professional preparation program is recognition that teaching and working with learners of all ages requires not only specific content knowledge and pedagogical skills, but positive attitudes about multiple dimensions of the profession. The School of Education has identified six dispositions – social justice and equity, collaboration, critical thinking, professional ethics, reflective teaching and learning, and life-long learning—and developed an assessment rubric. The Master's in Educational Administration has two additional dispositions: visionary and ready to lead. For each dispositional element, there are three levels of performance - *unacceptable*, *initial target*, and *advanced target*. The description and rubric for the three levels of performance offer measurable behaviors and examples.

The assessment is designed to provide candidates with ongoing feedback for their growth in professional dispositions and includes a self-assessment by the candidate. The dispositions and rubric are presented, explained and assessed in one or more designated courses in each program. In Ed Admin the courses where dispositions are assessed are EDAD 610, EDAD 618A, and EDAD 620. Based upon assessment feedback candidates will compose a reflection that becomes part of the candidate's Teaching Performance Expectation portfolio. Candidates are expected to meet the level of *initial target* during the program.

PROGRAM STUDENT LEARNING OUTCOMES (PSLOs)

The Master of Arts in Education Program assesses four (4) Program Student Learning Outcomes (PSLO).

PSLO 1: Professional Dispositions (EDAD 610, EDAD 618A, & EDAD 620)

PSLO 2: Leadership Skills (Professional Portfolio)

PSLO 3: Analyze Research (EDUC 622)

PSLO 4: Integrate Research (EDUC 698)

The course objectives, assignments, and assessments are also aligned with the CCTC standards for a California Preliminary Administrative Services Credential. This course is designed to help teachers seek skills, knowledge, and attitudes necessary to assist schools and district in implementing effective programs for all students. The successful candidate will be able to merge theory and practice in order to realize a comprehensive and extensive educational program for all students. Candidates will be required to formally match alignment with the following Preliminary Administrative Services Credential standards in this course:

Category III: Field Experiences in the Program

Program Standard 12: Nature of Field Experiences

In the administrative services preparation program, candidates participate in practical field experiences that are designed to facilitate the application of theoretical concepts in authentic settings. Each candidate is introduced to the major duties and responsibilities authorized by the administrative services credential as articulated in the *Performance Expectations*. Field experiences include a variety of diverse and realistic settings both in the day-to-day functions of administrators and in long-term policy design and implementation.

Program Standard 13: Guidance, Assistance and Feedback

The administrative services preparation program sponsor has an effective system by which the candidate's performance is guided, assisted, and evaluated in each field experience. In this system, at least one field/clinical supervisor and at least one program supervisor provide complete, accurate, and timely feedback to the candidate, including constructive suggestions for improvement.

Other standards may also apply to this semester's field experiences as are aligned with Courses EDAD 616B and EDAD 620.

Electronic Communication Protocol

Electronic correspondence is a part of your professional interactions. If you need to contact the instructor, e-mail is often the easiest way to do so. It is my intention to respond to all received e-mails in a timely manner. Please be reminded that e-mail and on-line discussions are a very specific form of communication, with their own nuances and etiquette. For instance, electronic messages sent in all upper case (or lower case) letters, major typos, or slang, often communicate more than the sender originally intended. With that said, please be mindful of all e-mail and on-line discussion messages you send to your colleagues, to faculty members in the School of Education, or to persons within the greater educational community. All electronic messages should be crafted with professionalism and care.

Things to consider:

- Would I say in person what this electronic message specifically says?
- How could this message be misconstrued?
- Does this message represent my highest self?
- Am I sending this electronic message to avoid a face-to-face conversation?

In addition, if there is ever a concern with an electronic message sent to you, please talk with the author in person in order to correct any confusion.
