Task

Research my project and who I am working for

Research how to write email/ edit resume

Learn how to use
Canva

Work on infographic

Work on worksheets

Make final touches, review everything

Submit project

Thurs, Jan 27 for one hour, and Fri, Jan 28 for 25 mins

Wed, February 2 for 45 minutes

Wed, Feb 9 for 50 minutes

Wed. Feb 16, and Feb 23, each for 1.5 hours

Wed, March 2, Wed March 9 for 2 hours each day

Research the CSU institute for Palliative Care group. Take detailed notes on the resources they provided. Learn who they are, and brainstorm what I want to create my project on

I will learn what makes up a professional email, then write it and send it to my mentor. I will then edit my previous resume and include that in my professional email

I will create an account with Cava and learn what features it has. Create blank templates and start navigating any issues I may have

I will start working on my infographic on the first schedules day, and finish it on the second.

I will create one worksheet on the first scheduled day and the second on the second scheduled day. I may create three or four worksheets, depending on the time I have
will look over both my worksheets and infographic, adding final touches if needed

The institute provided a toolkit and website that will use to gather my info. As well as the SL home page on Cougar Courses

There are links on Cougar Courses that I will use to learn what a professional email is. I used an online resume builder to edit my resume

## I will use Canva.com

I will use the resources provided by the institution, and create my infographic on Canva.com

I will use the resources provided by the institution an create my worksheets on Canva.com

I will do this using Canva.com
